HOSTILE ATTACKS REPULSED.

LONDON, To-day. The text from the British headquarters reports that after all our objects were gained yesterday several powerful hostile counter attacks made in the afternoon and evening were all repulsed with heavy losses to the enemy. The total prisoners captured in yesterday's offensive are 1,614, including 480 officers. Our casualties were light. On the battle front to-day we improved our positions slightly south of Polygon Wood. There was considerable artillery activity on both sides to-day.

RUSSIAN REPORT.

PETROGRAD, To-day. An official report from general headquarters says: On the north-west, southwestern and Roumanian fronts there have been fusillades and reconnaissances. On the Caucasian front in the region of Satalho our reconnoitering parties had an engagement and drove the Kurds to Orumuru, two miles N.W. of Rusa, and captured prisoners and herds of cattle. On the Baltic on Tuesday the enemy air raided the region of the Gulf of Riga. He did so with the object of ascertaining the exact position of our naval forces. Enemy airplanes kept themselves beyond the reach of our naval guns and coast batteries. On Monday on the southwest front our airmen brought down one enemy machine.

chine. Pilot Ensign Simirnof was his sixth air battle.

THE GERMAN METHOD.

LONDON, To-day. A British official, with reference to statements contained in the German official text, says: To-day's German communication says that the British gained less territory on the 26th than on the 20th. This is perfectly true. The attacking troops gained all their objectives on both days, but the object set for yesterday was smaller than those of the 20th. In sentences which are purposely misleading Von Ludendorff describes the fighting near Zonnebeke and Ghelvelt. He omits to state that Zonnebeke was lost by the Germans, but emphasizes the retention of Ghelvelt, which was not one of the British objectives.

2.00 P. M.**RUSSIAN DEMOCRATIC CONGRESS**

PETROGRAD, To-day. The Democratic Congress held its first session last evening, 1,200 delegates from all parts of Russia being in attendance. All the members of the Provisional Government, headed by Premier Kerensky, were present. Several members of the diplomatic corps occupied a special box. Tchelds, President of the Council of Soldiers' and Workmen's Delegates, in opening the Conference explained that the extremely grave situation of the country necessitated the constitution of a strong revolutionary power responsible to all elements. Avksentiev, President of the Council of Peasants' Delegates, said that the moment had arrived for democracy to gather all

its political wisdom to save the conquests of the revolution, which were threatened with an irreparable catastrophe if not safeguarded now.

NEW GERMAN OFFICE.

AMSTERDAM, To-day. The Main Committee of the Reichstag, a despatch from Berlin says, yesterday passed the first reading of the Bill creating the post of Imperial Vice-Chancellor.

THE DEBATING SOCIETY.

AMSTERDAM, To-day. The Constitution Committee of the Reichstag, according to a despatch from Berlin, by a vote of 15 to 12 yesterday adopted a proposal to cancel the concluding sentence of article 9 of the Imperial Constitution, which declares members of the federal council from simultaneous membership in the Reichstag. The committee adjourned, after passing an order of the day which declared that the Reichstag will co-operate in the event of the conclusion of peace.

BOMBING RAID.

LONDON, To-day. An official communication issued by the Admiralty says: A naval aircraft squadron carried out a bombing raid yesterday on the St. Denis western airdrome. Bombs were dropped on the sheds and on fifteen Gotha machines lined up in the airdrome, direct hits being observed on the latter. All our machines returned safely.

GETTING AFTER LENINE.

PETROGRAD, To-day. The Minister of the Interior has ordered the arrest of Nikolai Lenin, the extremist leader, if he is found in Petrograd, but he is not to be taken into custody in the hall of the Democratic Congress. The Reich to-day reports the re-organization of the revolutionary militia known as the "Red Guard." The re-organizers are negotiating with a factory for 12,000 rifles and several machine guns and ammunition in proportion.

NEW ENGLISH BONDS.

LONDON, To-day. The issue of a new class of war bonds is announced by the Bank of England. On and after October 2nd and until further notice, the Bank is authorized by the Treasury to receive applications for five per cent. bonds as follows: Bonds repayable in 1922 at 102, bonds repayable in 1924 at 103, bonds repayable in 1927 at 105, and the issue of four per cent. bonds repayable in 1927 at par. These bonds will be styled National War Bonds and will be issued at par. The five per cent will be subject to the income tax; the four per cent will be free of income tax.

ARE THEY WORTH IT?

LONDON, To-day. David Lloyd George is commencing proceedings for libel against certain newspapers which announced that on the occasion of last Monday night's air raid the Premier left London for his house at Walton Heath. The fact is, the Premier started for France that night.

GERMAN MUNITION WORKS BURNED.

LONDON, To-day. A big German munition works at Immishafen, near Constance, Baden, was destroyed on Wednesday night by fire.

NOT SURPRISING.

PETROGRAD, To-day. The arrest of seventeen agents of an important German military espionage organization is announced. The agents are all of the Swedish nationality.

DARING AERIAL FIGHTING.

LONDON, To-day. Referring to aerial battles on the British front, an official statement issued last night says: The weather was misty Wednesday morning and later the day was overcast with a strong west wind. In spite of this our airplanes were extremely active in co-operation with the artillery and infantry. In the battle area the enemy's troops on the entire line and his reserves in the rear were harassed with machine gun fire throughout. Rounds were fired from altitudes of one hundred feet and upwards and many parties of German infantry were dispersed with casualties. On one occasion three of the enemy guns were fired on while moving. The teams of two of the guns bolted and the third gun was overturned. Strong opposition was encountered from the enemy's fighting machines and a very large number of combats occurred at low altitudes. Heavy casualties on both sides resulted owing to the difficulty of regaining control of damaged machines when flying near the ground. The weather prevented any extensive bombing operations during the day time, but at night over two tons of bombs were dropped on enemy reserves near the battlefield. Seven hostile machines were brought down in the air fighting, three were driven down out of control and five others were brought down by infantry fire. Thirteen of our machines are missing.

WINARD'S LINIMENT CURES COLD IN COWS.

The Circus.**AN APPRECIATION.**

A most edifying sight took place at the so-called Wonderland Circus last evening when a small kid, certainly not more than eight years of age, "pinched" a ride on the "Merry-Go-Round." The great hulking lout (the language may be excused—it is the only description to fit the individual in charge of that attraction) waited until the machine was going full speed and then taking the youngster by the nape of the neck and the slack of the pants heaved him off on his face on the floor, severely cutting him. The spectators of this little incident were somewhat indignant and a scene was narrowly averted by the intelligence (save the mark) of the police officer in charge of the "circus" who had, of course, seen nothing of the incident but who then came along, listened to one side of the story—that of the hulking bully in charge of the Merry-Go-Round—and expelled the kid from the circus.

In the words of the poet, "What fools we mortals be!" This so-called circus, (and I say "so-called," because from the days of our picture-book childhood we know that circuses contain lions and tigers, bears, elephants and all the rest of the animal kingdom, and what does this show consist of?—a few frightened-to-death looking monkeys, some toothless snakes and a lot of third-rate side-shows to catch the "suckers")—plays this town for two weeks and we are all delighted. They go off with from five to ten thousand dollars of Newfoundland money while the fund for sending Christmas boxes to our boys in the trenches, which the organizers wished to close in a couple of days' time, still remains not half subscribed.

And what an interest we take in the personnel of the outfit! Yesterday in one of the evening papers we were edified to learn that "the young lady in charge of the snakes" had a falling out with the management and had been fired! To-morrow this show leaves to take another few thousand dollars or so out of Grand Falls before, with a wink and a sneer, wiping the dust of Newfoundland off their feet. No doubt there will be lots of eulogistic accounts in some of our papers of how sorry we are to have them go. I, therefore, wish to place this testimonial on record of what I consider the most third rate show we have ever had unloaded on us, and we have stood for a lot. Wake up, fellow Newfoundlanders! Don't be too green to burn all your lives, and don't fall for everything because it comes from "away."

Acids in Stomach Sour the Food and Cause Indigestion

"Pape's Diapepsin" fixes sour, gassy, upset stomachs in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach, headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite, but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gas, heartburn, sourness, dyspepsia, or any stomach misery. Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.

City's Health.

Two cases of diphtheria were reported within the city limits during the past week and two houses disinfected and released from quarantine. There are in the Fever hospital 15 persons suffering from diphtheria, 1 of scarlet fever, 2 of infantile paralysis and 4 of typhoid; under treatment at home, 2 infantile paralyses and 2 typhoid patients.

From the Wreck.

The wrecked Belgian relief ship, which is breaking up at Portugal Cove, Trepassey, was the centre of much attention yesterday, so we are informed by a gentleman who returned from that place. The work of picking up the floating packages of milk, bacon, lard, etc. was being carried out at great risk to the fishermen, one of whom had a narrow escape from being crushed beneath a 350-lb package of lard. The man in question was assisting in getting the package ashore when he was taken off his feet by a receding wave, and before he had time to regain his footing a giant sea lifted the heavy package over his body only missing his head by a few inches. The water for miles around was strewn with the ship's cargo. There is yet quite a quantity of lubricating oil to be salvaged. A dog owned by a fisherman of the place brought to shore upwards of one hundred dollars worth of bacon and milk.

September 30th.

We draw the attention of our readers to the advertisement in to-day's paper respecting the termination of the Daylight Saving Act, 1917, and publish the following extract from a notice published by the authorities in England which may be of interest:—"The hands of ordinary striking clocks should not be moved backwards; the change of time should be made by putting forward the hands eleven hours, and allowing the clock to strike fully at each hour, half-hour, and quarter-hour, as the case may be. The hands should not be moved while the clock is striking. An alternative method, in the case of pendulum clocks, is to stop the pendulum for an hour."

Our Local Lochinvar.

"Young Lochinvar has come out of the West," Wherever he rambled his boots were the best; He fished in the Humber, his feet were at ease, Though he stood in the water right up to his knees. "Oh, the boots that I wear can't be jammed now by gar," "There's none like the Buddy," says young Lochinvar.

Broad rivers he crossed rushing mad with a flood, Where other boots didn't prove one bit of good, While as tight as a bottle the Buddy's have shown, And his feet all the while were as dry as a bone; Whenever you'll travel, be it near or far, "You'll hear of the Buddy," says young Lochinvar.

He went through the forest, up hill and down dale, The crest of the mountain with Buddy's he'd scale, Through morasses and marshes and highland and moor, He found them the best boots that ever he wore. "I wonder," said he, "if they wear them at war," If they don't, now they "ought to" says young Lochinvar.

"They talk of their spots on the cracker," said he, "But a comfortable boot is the best thing for me"; There's nothing like taking our grandfather's rule, To keep our feet dry and to keep our heads cool. Oh, the boots that I wear can't be jammed now by gar, "There's none like the Buddy's," says young Lochinvar. sep28,11

Wedding at Petty Harbour.

A happy wedding took place in the Church of St. Andrew, Petty Harbour, on the morning of Wednesday, Sept. 26th, when the Rev. Herbert Mackay, Incumbent of Tilt Cove, was united in the bonds of holy matrimony to Miss Dorothy Bishop (Doss), daughter of Henry Bishop, Esq., of Petty Harbour. The happy couple were united by the Incumbent of Petty Hr., the Rev. John Hewitt, assisted by the Rev. Conrad Barton, M.A., Principal of Queen's College. Immediately after the marriage and as forming a part of the service and in compliance with the Prayer Book Rubric that effect, there was a celebration of Holy Communion with a large number of communicants.

The bride was given away by her father, the maid of honor being the bride's sister, Miss May Bishop; Mr. Gosse, student at Queen's College supporting the groom. After the ceremony a bounteous repast was provided by Mr. and Mrs. Bishop and partaken of by a large number of guests. The health of the happy couple was proposed in a neat speech by the Rev. Mr. Hewitt to which the groom made a suitable reply and then proposed the health of the bridesmaid, thanks for which were given by the best man, Mr. Gosse. It then fell to the lot of the Administrator of the Diocese, Rev.

Canon Smith, to propose the health of the parents of the bride and bridegroom. Canon Smith made allusion to his long and happy acquaintance with Mr. and Mrs. Bishop. That they were his old and valued friends that in April, 1881, he had had the pleasure of joining them in Holy Matrimony at the church at Fortuaga Cove, and that he felt special pleasure in being present at the marriage of their daughter. Mr. Bishop in a few eloquent words tendered thanks of his own behalf and that of Mrs. Bishop. Rev. Mr. Barton, under whom the bridegroom had studied for the ministry, spoke in praise of Mr. Mackay and the bride. Rev. S. M. Stewart of Ungava, another old friend of the family spoke happily to the same purpose.

The bride was the recipient of many valuable presents including a purse of silver from the school children of the C. C. C. S. school in which she formerly acted as head teacher. The Telegram wishes Mr. and Mrs. Mackay many years of wedded happiness.
