The blood is composed of minute particles or discs resembling the scales of a fish. Nervous force is the agent by which these discs are conveyed to the extremities of the nerves. The several members of the body, the muscles are mostly voluntary, those of the heart, lungs, stomach, &c., are involuntary. In order to restore a diseased or enfeebled organ, it is necessary to promote the strength of the muscles through the nervous system. We have, therefore, no nervous tonic so reliable and convenient as FELLOW'S Compound Syrup of Hypophosphites, and we, therefore, gladly recommend it in the diseases of such organs as depend for health upon involuntary muscular action.

IMPROVE NUTRITION.—The central idea in the treatment of all Chronic Wasting Disease, resulting in Nervous Debility, is the absorption and Assimilation of Food, and the formation of Healthy Blood. Dr. WHEELER'S COMPOUND OF FERRO-FERRIC AND CALCEA contains the only agents known that act directly as excitants of nutrition, by imparting tone to the stomach, Liver, and Pancreas; the great tripled that prepares nutriment for building up the organs and tissues of the body. The action of this remarkable preparation is extraordinary in strength and vitalizing the constitution, whether impaired by exhaustion, indigestion, bad habits, or run down by old complaints that have resisted all ordinary means. Being a delicious cordial to take, and perfectly harmless under all circumstances, it is eminently adapted to prostrate, anemic women and delicate children.
