## FORD COAL PROPERTY LOOKS GOOD TO FROST

Municipal Coal Mine Proposal Has a Decidedly Ford Tinge, According to the Statement of Ald. Frost, One of the Inspection Committee.

OPENINGS IN PROPERTY SHOW MANY COAL VEINS

There is a 13 Foot Vein and Runs Through Entire Holding; Continuity of Veins is Demonstrated; Easy Grade for Railroad Construction.

FROST present indications, the Ford syndicate stand a better chance of doing business with the city of Calgary than does the Du Rocher company. The Ford people have a clear lead in the matter of development, from a layman's point of view, and right now the municipal coal mine for Calgary has a decided Ford tinge.

This is the impression one gains from talking the matter over with Alderman T. A. P. Frost, of the committee that made an inspection of the two properties last week. Mr. Frost, of course, reserves his report to council, and modified his statement that he looked over the property only with a layman's eyes, with an idea of accessibility of transportation.

Today the Ford people are ready to actually show a vein of coal, while the Du Rocher people, while they have coal, in my belief, can show only an undeveloped prospect," says the alderman. "In other words, the Ford mines were in excellent condition to allow an inspection, while the Du Rocher mines were in such a condition that we had to take the word of Mr. Du Rocher for a number of things that we should have actually witnessed and seen."

Alderman Frost and Alderman Cleburne, who were appointed to make a preliminary inspection of the property, returned to the city, returned from the trip Saturday afternoon. They were ready to make their report to the committee on Thursday afternoon. It will be the engineering report of Engineer Winkler, who was named by the city council to accompany the expedition and bring back the expert opinion regarding the feasibility of mining the product and getting it to Calgary at a reasonable price.

Expedition Well Equipped

When Peary outfitted his expedition to discover the North Pole, he used no more care than did the aldermen when they selected their supplies for the trip to the mines. Ropes, block and tackle, chains, aneroid barometers, steel picks, shovels and all the equipment of a mining prospector were taken along in the three automobiles which composed the motive power of the party. And strange to say, every piece of the apparatus was needed at the time or another on the trip. The automobiles gave the usual trouble when they were used on the trip. The blocks and tackles and spikes got in the hands. The barometers took the altitude and the ropes and chains were used.

## THIRTEEN ORDAINED MINISTERS AT THE CONFERENCE

Crescent Heights Asks for Rev. W. H. Irwin; Dr. Stanley is President of Union

Medicine Hat, June 1.—Thirteen young ministers were ordained to ministry in the Methodist church today by Rev. S. D. Chown, D.D., general superintendent. This is the largest ordination class of any conference ever held in Western Canada. Taking as his text Jeremiah 23:28, the general superintendent preached a most impressive and powerful sermon in the evening. The retiring president, Rev. T. P. Perry, of the Crescent Heights conference, presided at the conference. Dr. Chown, who was elected president of the conference, addressed the delegates at the opening session. He spoke of the need of a revival of the church in Canada, and of the importance of the young ministers who were being ordained. He exhorted them to be faithful and to be true to the principles of the gospel.

## COMMONS HURSTLES TO ADJOURN SESSION ON THURSDAY

Main Estimates Now All Voted and Supplementaries Alone Remain With Railway Grants to be Considered; Grand Trunk May Get Share.

Ottawa, June 1.—After a day's work, during which money was voted at the rate of several thousand dollars a minute, the main estimates, not previously considered, were dealt with on Saturday before 10, when the house rose. This leaves the supplementary estimates, amounting to over \$22,000,000, the railway subsidies, approximately \$25,000,000, and perhaps a Grand Trunk Pacific loan of ten or fifteen millions, to be disposed of, in addition to considerable legislation, before the House rises.

Despite this rather heavy program of work, which under ordinary circumstances, would take weeks to deal with, the expectation still is that prorogation will take place on Thursday afternoon. The probability is that the house will have to sit until long after midnight on the first three nights of the week.

Ontario Neglected

Consideration of the remaining main estimates of a number of departments on Saturday involved the discussion of a large number of topics at some length. One of the most interesting developments was a strong criticism of the immigration department, under the present and the late government, by Mr. Sutherland, Conservative member for South Oxford.

Mr. Sutherland's complaint was that Ontario is and has been neglected, and that too much effort is being made to send people farther west. During the last year, he asserted, only 1,355 laborers had been placed on Ontario farms by the 34 agents.

Mr. Crothers, acting minister of the interior, quoted figures to prove that 12,000 immigrants had remained in Ontario during the year. Mr. Sutherland said they did not go to the farms. He had no faith in the figures any way, as many of the immigrants remained in Ontario only a few months and then proceeded west.

Small Grazing Leases

Mr. Buchanan, Medicine Hat, on the eve of the adjournment, brought up the question of the desirability of giving farmers grazing leases for small tracts of land when the grazing privileges for the Blood Indian reservation, Southern Alberta, now held by Gordon Ironsides and James, expired on June 30. He said it would be a great encouragement to mixed farmers if the department would decide to lease this land in small tracts.

Mr. Crothers, acting minister of the interior, said that the matter was under consideration. An official had been charged the Colonel with drunkenness and having waived damages after the defendant had uttered a retraction, was awarded the normal damages of six cents provided in such cases by the laws of Michigan. Each party of the suit will have to pay his own expenses.

The body of Mrs. J. P. Boucher, of Bottrell, was brought to Shaver's undertaking rooms from that town last night, Mrs. Boucher being the victim of a strange automobile accident near her home.

In company with her husband who conducts a grocery business in Bottrell, Mrs. Boucher was automobiling early in the afternoon. The car started up a steep hill, gave out midway to the top of the hill, and the brakes refused to work. The car tumbled backwards down the hill and was soon beyond control.

Near the bottom it swerved into a ditch, and overturned. Mrs. Boucher was thrown into the gutter, but the woman was caught under the tonneau and crushed to death. She lived only a few minutes after her husband was making frantic efforts to raise the heavy machine. The body will be prepared for burial in Calgary and then sent to Bottrell, where the funeral services will be held.

## FIFTY HELPLESS MEN ARE TORTURED IN POLICE STATION

Locked in Cells With no Escape Possible; Forced to Endure Agony Sunday Afternoon

Other police departments will do well to copy the innovation that was evident at the Calgary central police station yesterday afternoon. It is the first move in locking people up and then forcing them to listen to sacred music. Tommy Burns is out with a statement favoring the new plan, declaring that forcing religion upon a man is a far better move than deporting him from its influence.

A quartet within the department and its guests was the strange spectacle which greeted the ears and eyes of those who fell under the influence of the law yesterday. In the Calgary police department are some singers who might, if trained vocally, make Caruso and Bonci look to their laurels. They showed it yesterday.

In the dingy little court room where prisoners look over the dock, an innumerable "good morning" music. Magistrate Sanders, there course, through the benches yesterday, the tunes which have made many a down-trodden organ was brought to the court room and a search made through the department for an organist. None appeared, so the resourceful Sergeant Cooper unlocked the door of the station house and brought out Exhibit A. In the shape of Dr. Eberly, a prisoner who is serving a month's sentence for
