THE BIG TIE-UP.

Preparations for the Great Extended Strike.

New York, Aug. 21.—The General Executive Board of the Knights of Labor reported to-night that everything was very encouraging, and that they were in constant communication with the strikers all along the line. No strike has yet been ordered outside of District Assembly 246. Of the future orders Mr. Powderly could not tell. They will be very glad if the federation joins them; if not they will go on anyhow. This is the first time, said Mr. Wright, that Mr. Powderly had ever come into a strike himself, but he was here flatfooted and was going to stay. Mr. Powderly said he had never ordered a strike, and neither had the Executive Board, and they had not ordered this one. A tie-up of the surface roads and elevated roads throughout the city, Mr. Powderly said, had not been thought of.

grand Jury by such means as they cannot expect success."

Notes of the Frax.

Mr. Hayes, in discussing the matter of the grand jury, remarked that if the grand jury found indictments against the leaders of the strike he did not care, because an investigation was sure to follow, and that is precisely what the leaders want.

Executive Committee of District 246 arrived at the St. Cloud Hotel and began a conference with the Executive Board. Its object was for the making of all the necessary arrangements for the coming tie-up and to strengthen any weak places along the line.

and to strengthen any weak places along the line.

Mr. Webb this afternoon said, relative to the charge made by Mr. Powderly, that he and the Executive Board had been shadowed by detectives, that unless he had taken every lawful means to keep himself informed as to what the Board were doing he would be unfit to remain half an hour in his present position.

At a meeting of strikers' representatives, to be held in Albany, each local assembly will send three to five delegates, and there will be present 600 to 700 members from the section lying adjacent to the Central road from New York to Buffalo.

the section lying adjacent to the Central road from New York to Buffalo.

NEW MEN WILL NOT WORK.

BUFFALO, Aug. 21.—Between 40 and 50 men who were brought to this city to work in the yards for the New York Central Railroad refused to work to-day when apprised of their duties, and put themselves in communication with the Switchmen's Mutual Aid Association. A meeting of that body was held in Stendi's Hall this afternoon. The strangers were hired by means of agents in Chicago. St. Louis and Philadelphia, who advertised for men to work for the Central road at Buffalo. The men state that they were brought here by representations that they were to go to work on a newly-built branch of the road, and not to take the place of strikers. The association will devise means to ship the men back to their homes.

NO TROUBLE EXPECTED WEST.
CHICAGO, Aug. 21.—John Hall, a member of the Executive Board of the Federation of Railway Employes, said to-day, in reference to the strike on the Vanderbilt roads, that he did not believe the Brotherhood men west of Buffalo would be involved, as he thought the action to be taken at Terre Haute on Saturday would be not yas to the New York Central Railway. The leading officials of the Vanderbilt lines in Chicago say they are not making preparations for a strike and do not expect one.

A DAY OF EXPECTANCY.

NEW YORK, Aug. 22.—This is a day of expectancy in the railroad situation. No one knows what to-morrow will bringforth, me knows what to-morrow will bringforth, whether the great strike, which it is now believed must come, will be declared on, or whether it will be postponed till Monday. Mr. Webb said this morning that lowderly's manifesto was not addressed to him and he had not read it. "It is addressed to the K. of L. and I'm not a Knight."

This statement proves that Mr. Webb spoke the truth when he said he had not read it, for if he had he would have known it was addressed "To the people."

"I have been told, however." Mr. Webb continued, "that Mr. Powderly says in his manifesto that I have not carned my position here. Apart from that being none of Mr. Powderly's business, I am under obligations to no one for the position-which I hold. The fact that I'm
