

SAULT STE. MARIE WAS JUBILANT

When Lake Superior's Power
Was Utilized.

TURNED ON WITH GOLD SWITCH

Miss Helen Clergue Officiated—15,000 Persons Sat Down at the Banquet.

Sault Ste. Marie, Mich., Oct. 26. — The great water power canal of the Consolidated Lake Superior Company, on the American side, of Sault Ste. Marie, has been opened. The first water started through the turbine engines at noon yesterday, and with a gust of enthusiasm seemed to strike the city. All business was practically suspended, and the inhabitants of the two cities celebrated the event. The day was replete with important incidents, but the greatest of these was when the contractors, under whose direction the work of building the power canal, the power house and the installation of the enormous amount of machinery, turned the completed plant over to the Consolidated Lake Superior Company.

TURNED THE GOLDEN SWITCH.
Mr. Clergue, after thanking the contractors, relieved them of further responsibility, and stepping aside, gave way to his sister, Miss Helen Clergue, who stepped to the center of the large platform adjoining the power house, and turned the golden switch, which opened the gates at the foot of the canal. At once the waters of Lake Superior rushed into the turbines, starting the wheels of the great electric generators, and putting the finishing touches to the herculean task which has taken four years to complete.

As Miss Clergue turned the switch, Mr. Clergue, the great promoter, remarked that in doing so she was putting the waters of Lake Superior through the wheels of a great enterprise. Those on the platform stood with bared heads waiting for a few seconds, and then a shout went up as the electric lights sent out their announcement that the electric current of the power house had been brought into life.

Mr. Clergue complimented the engineers and contractors upon the thoroughness with which the work had been done. He said the confidence which had been placed in the hands of the contractors, and the fact that the work had been done so quickly, and in such a manner, was a great credit to them. He then turned to the contractors and said: "You have done a great work, and you have done it in a very short time. I am proud to have you as contractors of this great enterprise. I am proud to have you as contractors of this great enterprise. I am proud to have you as contractors of this great enterprise."

BANQUET FOR 15,000.
Immediately after the opening of the canal, the fourth floor of the power house, which is half a mile long and several hundred feet wide, was thrown open, and the residents of the Soos, together with the visitors, were given a banquet. Fifteen thousand persons participated. Two thousand tables, each half a mile long, were spread, and an army of waiters provided for their wants.

The power house banquet room, which will eventually be used by part of the manufacturing industries, was handsomely decorated with evergreens, flags and bunting. There seemed to be millions of stars strung from wall to wall on every girder the entire length of the structure.

Mr. Clergue, as he passed and saw the multitude accepting the hospital-

YOU CAN TEST THE KIDNEYS

And Find Out for Yourself Whether or Not You Are Becoming a Victim of Painful, Fatal Kidney Disease.

**DR. CHASE'S
KIDNEY-LIVER PILLS.**

It is not necessary for you to consult a specialist on kidney disease to find out if you are a victim of this dreadful derangement. You can test your kidneys, and satisfy yourself on this point.

Allow some urine to stand in a glass for 24 hours, and if at the end of that time you find sediment at the bottom of the vessel you can be sure that your kidneys are diseased.

Pains in the small of the back, and smarting when urinating, frequent desire to urinate, especially at night, loss of flesh and strength, are other marked symptoms which indicate kidney disorders. Make this test for yourself, consider whether you have any of these symptoms, and if you conclude that your kidneys are out of order begin at once to use Dr. Chase's Kidney-Liver Pills. They will bring prompt relief and will thoroughly cure you.

On account of their direct action on the kidneys, Dr. Chase's Kidney-Liver Pills cure ailments of the kidneys when ordinary kidney medicines fail. They have proven their efficacy in many thousands of cases, and are endorsed by more people than any other kidney medicine extant.

Mr. James McGuire, blacksmith, Mount Forest, Ont., states: "In my work as blacksmith there is probably more straining and exposure to sudden changes of temperature than in any other trade. This no doubt accounts for so many blacksmiths suffering with backache and kidney disease. I was troubled a great deal with my kidneys and the bending over my work so much caused great suffering from backache. I found that Dr. Chase's Kidney-Liver Pills was the best treatment I could secure for this trouble. They acted directly and promptly, and I would not think of using any other medicine."

Sande, an Italian, Antonio Stein, his head at the Pittsburgh morgue, and the police are searching for Antonio Rich an Italian from Pittsburgh who is said to have committed the murder. Stein was killed almost instantly by a number of kicks in the stomach.

DUCK HUNTER DROWNED.
Peterboro, Ont., Oct. 27. — While duck shooting in Rice Lake Saturday morning Samuel Courrier, a resident of Peterboro, lost his life by drowning. Courrier and Albert Talbot were shooting off Curtis' Point, Rice Lake. The premature discharge of a shot gun made a hole of about three by six inches in the canoe, which sank with the occupants. Talbot was rescued by two farmers, but Courrier sank before assistance arrived. He was a prominent local hunter and was married.

AUTOMOBILE FATALITY.
London, Ont., Oct. 27. — Capt. Max De Bathe, Mrs. Langtry's brother-in-law, and a friend, named Mr. Cox, have been injured in an automobile accident, in which their driver was killed. They were running in a new car from London to Brighton. The machine swerved into a bank near Crawley, and was smashed. The driver was killed instantly. Mr. Cox suffered internal injuries and Capt. De Bathe had his collarbone broken.

SCAFFOLD COLLAPSED.
New York, Oct. 27. — Two men were killed and another fatally injured Sunday by the collapse of a swinging scaffold on the tall chimney of the American Sugar Refining Company, in Williamsburg. The dead are John Mulroy and John Williams, of Newark, N. J., and the injured Henry Cooper, of Newark. The scaffold, on which the scaffold was 275 feet high. They had not fastened the scaffold securely and it slipped, throwing them to the ground.

DROWNED HER CHILD.
Niagara Falls, N. Y., Oct. 27. — Mrs. Daniel Lynch, the wife of a prominent shoe merchant of this city, drowned her 8-year-old daughter in the bathroom at her home and then attempted suicide by cutting her throat yesterday. Although badly wounded, it is believed the woman will recover. There is no doubt Mrs. Lynch was insane when she took her daughter's life and attempted to take her own.

MANGLED BY TRAIN.
Cobourg, Ont., Oct. 27. — Yesterday morning a man giving a maniacal performance on a trolley car, was struck and killed by a freight train, two miles east of here. He was a man of about 35 years of age.

BRAKE FAILED TO WORK.
East Liverpool, Ohio, Oct. 27. — While descending a steep hill in the central part of the city yesterday, a street car of the East Liverpool and Rock Springs line became unmanageable, the brakes refusing to work on account of leaves on the track, and dashed wildly down the hill, left the track and ran nearly a square over the paving bricks, finally stopping near the river. John Wallace, a potter worker, leaped from the car, and was seriously hurt. Motorman C. W. Rauch escaped by jumping. There were eight passengers on the car and a panic prevailed among them.

CAR AND AUTO COLLIDE.
New York, Oct. 27. — Twenty-two passengers on a trolley car were injured when it collided with an automobile.

Boer Delegates at Guelph.
Guelph, Ont., Oct. 27. — The Boer delegates, Messrs. Skipped Out.
Winnipeg, Man., Oct. 27. — A dispatch from Melita, Man., says Robt. Balgarran, a young farmer of that place, has skipped out with \$1,400 in cash. During the summer he bought a farm under crop, making a small payment. He sold the proceeds of the crop, as well as his stock and effects, leaving his creditors in the lurch.

Smallpox in Ottawa.
Ottawa, Oct. 26. — After a long struggle with smallpox, the city health officers were relieved and delighted a month ago to discharge the last patient from Porter's Island. Today the gladness has gone. Three new cases were discovered in a French family living at 267 St. Patrick street. The patients are children and have been sent to Porter's Island. Dr. Law, health officer, was not able tonight to form any opinion as to where the children contracted the disease.

A Cherished Autograph.
Windsor, Ont., Oct. 27. — Miss Alma E. Oliver, a young Windsor girl whose death occurred at Hamilton two months ago, shortly before her death wrote her name across the face of a bill, and by a strange dictate of fate, it turned up among friends. A bill bearing the name "Alma E. Oliver, 228 John street, Hamilton, Ont." across its face, turned up in the cash of the Page Wire Works, of Walkerville, Ont. Clerk J. Rochford laid it aside and brought it to the dead girl's father, James Oliver, of Windsor, last night. Mr. Oliver identified the writing as that of his daughter.

The deceased was in the employ of the Bell Telephone Company, at Hamilton up to the time of her death and the father stated that he thought his daughter and another young lady friend had written their names on bills at the same time with a view to seeing whether either of the two would ever turn up. The bill is still almost new, and indicates that the signature was placed there but a short time before the young lady's death.

jured yesterday, but none, it is believed, fatally, in or near the street car and automobile at Yonkers. A man and two women, who occupied the automobile, and the chauffeur, escaped injury. The chauffeur says he was running along the track of the trolley line when the car ran into him from behind. The motorman says the automobile, while going down grade, swerved onto the track and before he could again get off, his car bore down on and hit the machine. When the car struck the automobile it left the tracks and turned over. Had it gone to the other side of the road it would have been thrown over a precipice 50 or 60 feet.

KILLED ON THE STAGE.
Cold Spring, N. Y., Oct. 27. — The coroner yesterday held an inquest on the body of John Volkman, a barber, who was accidentally shot and killed on the stage of the Theatre Hail by Charles Meinel, of a company which has been giving a show in connection with the sale of a medicine. One of the star features of the show was Meinel's feat of shooting an apple from the head of any person who would volunteer. Volkman had offered to allow the apple to be placed on his head. When the apple was placed on his head Meinel began shooting at a distance of about 20 feet. The first two shots missed, but the third struck Volkman in the forehead. He died within an hour. Meinel was arrested and held on a charge of manslaughter. Volkman was 18 years of age and had been in the theatre in Germany. His grandmother lives in Buffalo, N. Y.

STOTT & JURY, BOWMANVILLE, ONT.
The Germ Theory of Cancer.

For many years the medical profession ridiculed the theory of the germ origin of cancer. Eminent German and French bacteriologists have demonstrated, however, that cancers are caused by certain germs, or microbes, and there are very few physicians now who do not believe that this is their true cause.

A brochure on this subject, published by MESSRS. A. STOTT & JURY, BOWMANVILLE, ONT., which will be sent to anyone interested, contains a full and complete history of the germ theory of cancer, and the most successful method of treating this dangerous disease, without the need of resorting to knife or plaster.

Reality of Stage Mechanics.
"Mechanical devices are now made wonderfully real on the stage," said the stock exchange, which has been so many years ago since even the simple device of depicting a snowstorm was regarded as an achievement. I remember on one occasion I was out with a ten, twenty and thirty company, playing repertoire, and in one melodrama I don't even now recall the name, for it was a prated play—I took the part of an old man whose daughter, the heroine, had been abducted. I was supposed to be blind, and my strong scene was in the third act, when I went out into a snow storm in search of my daughter. She was lying in a drift, and as I hobbled across the stage, I kept crying: "Me che-ld! Where is me che-ld? Well, it was early in the season, and the play was the first attraction at that theatre. The scene painters had been at work, and had dropped several paint brushes, hammers and other articles into the sheet that held the snowstorm. As the stage hands in the flies shook the sheets to make the snow come out a couple of hammers came down and just missed me by an inch. I was blind, as didn't dare to look up, but when a monkey wrench just grazed my temple I had presence of mind enough to yell: "See yonder moon! The storm is over! The stage hands took their cue and let up on me, and the audience never stopped to question how a blind man could see yonder moon."

Conforming.
Foot soles are curved and soft. Shoe soles are flat and hard! Breaking in new shoes invariably means shaping the foot soles to the shoe soles, till wear moulds the insoles to the curves of the feet.

The RESILIA is the only shoe which conforms to the shape of the foot sole immediately, from the first moment it is borne upon, and without any "breaking in."

It does this through the compressible nature of the resilient, elastic, cushion centre-sole, which is placed between the leather insole and outsole, instead of the usual scrap filling.
