In the face of the categorical and unqualified pledge of the German chancellor that there will be no acceleration, and the publicity of Germany's naval activities, the revival of the war scare is nothing more than a mischievous party device.

GOVERNMENT GRAIN ELEVATORS

For many years the grain growers of Manitoba have been exercised over elevator charges. They are practicalunanimous in the belief that a system of Government-owned elevators would not only force a reduction of storage charges, but enable them to market their wheat at a reasonable expense, or to hold their product until It could be sold at the highest market

The Provincial Government has now before it a scheme submitted to it by the Grain Growers' Association, which provides for the acquisition or erection of elevators by the issue of provincial forty-year bonds. It is proposed
