PIRATES LOST IN NINTH

Philadelphia Blanked St. Louis and Chicago Won a Close Game From Brooklyn.

New York, Aug. 25.—Larry Doyle wasn't in the game at the Pologrounds long today, just one-third of one-half of one inning, but long enough to do a great deal towards winning for the Giants. The leaders beat the Reds by a score of 2 to 1 and made their two runs in the ninth Doyle batted for Merkle, and whaled out a hit, stele a base and scored the deciding run. Demaree and Crandall on one side, and Ames on the other, had a pitchers' battle, in which the Giants dragged along in the rear until

UMPIRE DALY DENIES STORY OF FISTIC DUEL

Story Related by London Ball Club Is False, Says Umps.

Umpire Daly informed The Advertiser today that there was no truth in the story started by the London ball club that Biddy Burns, of the Berlin club, roused him out of bed at Peterboro on Saturday night and punched him for ordering him out of the game

Saturday afternoon.
"The story is absolutely untrue," said Umpire Daly, "and was apparently started to get me in wrong. I was pretty sore when I saw it in your paper last evening. It is so absolutely ridiculous that it is a joke. I have always found Burns a pretty good sort of fellow and we have had no words other than on the ball field. There was no trouble in Peterboro Saturday night and I certainly did not get beaten up by Burns or any other ballplayer." The story was given to The Advertiser by one of the London players, who is generally pretty reliable. If he intended it for a joke on Daly, he has a perverted sense of humor.

Stomach Troubles Due to Acidity

SO SAYS EMINENT SPECIALIST.

So-called stomach troubles, such as indigestion, wind, stomach-ache and inability to retain food, are, in probably nine cases out of ten, simply evidence that fermentation is taking place in the food contents of the stomach, causing the for-mation of gas and acids. Wind distends the stomach, and causes that full, op-pressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is unnatural, and acid formation is not only unnatural, but may involve most serious consequences if not corrected. To stop or prevent fermentation of the food contents of the stomach and to neutralize the acid, and render it bland and harm-less, a teaspoonful of bisurated magnesia, probably the best and most effective cortaken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, and neutralizes the acidity in a few moments Fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of a proper antacid, such as tained from any druggist and thus enable the stomach to do its work properly with-out being hindered by polsonous gas and dangerous acids .- M.
