Dealings in stocks were altogether governed by technical conditions. Issues in which the short interest was believed to be dominant moved hesitatingly, but became heavy in the final hour, when hog values. call money rose from 5 to 51/2 per cent. Sales of stocks amounted to 575,000

The foreign exchanges were featured by another slump in German marks to .43 cent, and weakness in Greek and Central European remittances. British, French and Italian bills were firm, improvement in sterling being associated with latest aspects of the Irish situation.
