URGE CANADIANS TO WIN MARKETS BY NEW METHODS

Commissioner Claims Improvements Must Be Made in Cheese and Butter.

NEW ZEALAND LEADS

Ottawa, Aug. 22.—A strong warning to Canadian dairymen of the need of better methods to meet the competition of New Zealand and Australian cheese and butter is given by J. A. Ruddick, dairy and cold storage commissioner of the Dominion in a bulletin just issued by him as a result of his recent visit to the Antipodes to study the dairy industry there.

"During the years in which Canada was the principal source of supply in the world's market for cheese of the Cheddar type," says Mr. Ruddick, "the producers of that article took very little interest in what the competitors were doing. The lack of serious competition engendered a false sense of security."

The announcement last year that New Zealand had pushed Canadians out of first place as the largest exporters of cheese was rather a shock to Canadian producers, all the more violent because of its suddenness. Quite as important, however, as the increase in the volume of New Zealand cheese available for export, is the marked improvement reported in its quality.

"In the case of butter also, the conditions prevailing in Canada during the past ten or twelve years have not provided the needful spur to secure the best results. With practically the whole of their butter being marketed at home, the Canadian butter makers lost touch with the developments in taste and other requirements that comes to those whose products compete with supplies from other countries."

Has Better Flavor. Comparing Canadian with New Zealand dairy products, Mr. Ruddick expresses the view that "the best Canadian is better flavored cheese than any New Zealand, however, he adds "there are less really poor New Zealand cheeses than there are Canadian."

"Our impression," he says again "is that (New Zealand) producers have more self reliance and initiative than the same class in Canada and are not so much inclined to lean on the government."

The dairy commissioner closes his bulletin with suggestions for the improvement of dairy methods in Canada. He points out that the Canadian dairymen have many advantages over their antipodean competitors but says it would be folly to ignore that competition. He does not suggest a blind following of New Zealand or Australian methods but advises that Canadian producers work out their own salvation in their own way.

RUM-RUNNERS ATTACK CREW OF N. S. SCHOONER

Canadian Press Despatch. Halifax, N. S., Aug. 22.—The schooner J. Scott Hankenson, Capt. Arthur Moore of Weymouth, N. S., which was attacked by rum-runners off Rockport on Monday, Aug. 20, as a result of which Captain Moore and Steward Harry Harm are lying in a hospital in Gloucester seriously wounded, is anchored just inside the mouth of Yarmouth harbor. Owing to a heavy sea running, no communication with the vessel has yet been made.

REPORTS COOL WEATHER OVER ALL THE DOMINION

Canadian Press Despatch. Toronto, Aug. 22.—Cool weather, accompanied by storms in some parts, is prevailing in nearly all sections of the Dominion. White River, Ont., apparently did its best to maintain its reputation by registering frost, but only managed to sink the mercury to 34 above, as the lowest during the night. Prospects are for continued coolness all over the Dominion, for a day or two at any rate, without likelihood of frost, however, at least not south of the Arctic circle.

BATHROBE MAKERS STRIKE WITH MATTRESS WORKERS

Associated Press Despatch. New York, Aug. 22.—Seizing the opportunity created by the collapse of restrictive cost negotiations at Atlantic City, boards of strategy representing 2,000 bathrobe makers and 3,000 spring and mattress workers went on a walkout today in an attempt to unionize the two industries, enforce the 44-hour week with increased wages and compel the maintenance of sanitary shop conditions.
