CABLE LETTER.

A Scare-Remembrances of Gunpow der Plot-Searching the House of Parliament Cellars.

The Queen and Kaiser—America's Cup Contest-Schoener Competition-Canada at Shoeburyness.

(Copyrighted by Associated Press, 1895.)

LONDON, Aug. 17 .- Ever since November plot to blow up the House of Parliament has picture." ever, there was some little show of cause tional men on board." for the apparently unnecessary precautions taken, as with the opening of parliament discovery of a real or imaginary scheme to unexpectedly send the Lords and on moners skyward in a body. Whether the story be true or not, the afternoon pers yesterday made quite a sensation t of the affair, and the inhabitant of this great metropolis have not half done talking about it. Simmered down to cold facts, it appears that there was some foundation for the report, and it rested upon the following basis of facts. A few weeks ago the manager of a local printing and lithographing com-pany was asked by foreigners described as " DARK LOOKING AND MYSTERIOUS"

the Turkish language was necessary for the job, the manager of the English concern unertook the contract and lithographed a thousand copies of the Turkish weekly, the paper being mostly sent abroad. A few lays ago two detectives from Scotland Yard called at the lithographing establishreply to the unfortunate manager's protests of innocence, the detectives explained to him that he had been printing in a guileless looking Turkish weekly red-hot anarchistic literature, calling upon the Socialists and others to combine for the purpose of blowing up the house of parliament upon the occasion of the opening session. One article actually stated that sixteen men were really on their way to England from various points in order to make the necessary arrangements for blowing up the members of parliament and the peers of the realm. In spite of his protests, the terrified manager was taken to Scotland Yard by the detectives, where he was confined and examined by the chief of the detectives and the police commissioner. To these officials the thoroughly frightened manager of the lithographing establishment explained all the circumstances of the case, gave a full description of the "dark and mysterious" looking foreigner and estab-lished his innocedce of any complicity in the treasonable publication and went his way, much relieved, upon promising not to lithograph any more Turkish weeklies without first ascertaining the nature of their con-tents. According to the Globe of yesterday the police first got wind of the affair owing to the boastings of some London anarchists. but the story of the latest "Gunpowder Plot" is far from being as thrilling as might have been and there is a strong suspicion in more than one quarter that the Scotland Yard authorities unearthed a "Mare's nest." Facts have leaked out respecting the meet-
