ced in the house yesterday and read a first time consists of one section, but i neans a great deal. This section reads:

1. Wherever, by any statute, the Lieutenant-Governor has power to appoint a member of any board of directors or of any other board or public body, and any such appointment has been made, the term of office of such person so appointed shall terminate on the thirtieth day of June next, and the Lieutenant-Goveror-in-council may appoint a successor for a term of one year from said thirtieth day of June, anything in such stat-ute to the contrary notwithstanding. his section shall not apply to any ap-ointment which the statute authorizing le same provides shall be made for a orm of one year only.
NOXIOUS WEEDS.

The bill for the eradication of and nd extends it to other noxious weeds as by three of the brightest legal lights on the bench in this province. The attack made by the Attorney-General therefore on himself was a piece of political clap trap. Under the impression that the Attorney-General had referred to the Real Property bill instead of the Elections bill, Mr. Eberts was saying that he had not attacked the Torrens system. Mr. Cotton in moving the second reading of the bill regulating the appointments on boards said that it required very little explanation as the one mittee, and Mr. Tisdall replaced Hon. J. Fred. Hon. Mr. Martin in moving the second the act which it was sought to repeal, rovided that in case any person "herefore" or "hereafter" should confirm tofore" or "hereafter" should confirm the action of a person purporting to hold a power of attorney for him, the con-firmation would be conclusive of the suf-ficiency at law of the action confirmed. The Attorney-General did not know who was responsible for the law, but it was made retroactive as well and evidently had been framed to meet some special cases. A person having the power to ratify what had been done in his name in some instances might put out of court innocent parties in a dispute over

some piece of property affected. He closed by saying that the late Attorney-General would have done better to have to take the place of the present Thisand Noxious Weeds acts. It emails that act instead of over the Elections a that act instead of over the Elections act.
