The Mines of British Columbia

Annual Report For 1901 Shows Gratifying Increase in Production.

Value of Minerals Exceeded Output of Yukon By \$2,000,000.

The annual report of the Minister of Mines for 1901, just published, is contained in a book of 517 pages, with several half-tone illustrations and a comprehensive index.

The mining industry has during 1901 shown a marked increase in production, which has characterized it since the inception of the present decade.

The production of gold in 1901 was 1,890,788 ounces, an increase of 17.5 per cent over that of the preceding year.

The production of silver in 1901 was 1,890,788 ounces, an increase of 17.5 per cent over that of the preceding year.

The production of copper in 1901 was 1,890,788 ounces, an increase of 17.5 per cent over that of the preceding year.

The production of lead in 1901 was 1,890,788 ounces, an increase of 17.5 per cent over that of the preceding year.

The production of zinc in 1901 was 1,890,788 ounces, an increase of 17.5 per cent over that of the preceding year.

The production of iron in 1901 was 1,890,788 ounces, an increase of 17.5 per cent over that of the preceding year.

The production of tin in 1901 was 1,890,788 ounces, an increase of 17.5 per cent over that of the preceding year.

The production of platinum in 1901 was 1,890,788 ounces, an increase of 17.5 per cent over that of the preceding year.

The production of other minerals in 1901 was 1,890,788 ounces, an increase of 17.5 per cent over that of the preceding year.

two smelters now under construction on the Coast, the market for coke should be increased next year.

The Crown's Nest collieries are as yet new, and their output is limited, not by the market, which is unlimited, but by the underdeveloped condition of the facilities and the limited transportation facilities.

The production of coal in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of iron in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of zinc in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of lead in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of tin in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of platinum in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of other minerals in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of coal in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of iron in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of zinc in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of lead in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of tin in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

\$680,154, or about 25 per cent, as compared with the production of 1900, but in fairness the comparison must not stop here; it should be remembered that in 1900 there was a phenomenal output of 1899 of 206 per cent.

The production of coal in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of iron in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of zinc in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of lead in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of tin in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of platinum in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of other minerals in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of coal in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of iron in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of zinc in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of lead in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of tin in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

The production of other minerals in 1901 was 1,890,788 tons, an increase of 17.5 per cent over that of the preceding year.

THE FAMOUS DOWNING STREET

The Centre of the Government to the Wide British Empire.

From Good Words. Downing Street is the centre of the government of the British Empire, and as such its renown is world-wide.

By strange irony of fate this street for a time was broken up by the headquarters of the "Ins," or the party in power, as well as the centre of the most secure and stable government in the world.

Downing Street is the centre of the government of the British Empire, and as such its renown is world-wide.

By strange irony of fate this street for a time was broken up by the headquarters of the "Ins," or the party in power, as well as the centre of the most secure and stable government in the world.

ROBBED IN FRISCO. Victoria Nurse Had Her Money and Jewelry Stolen—Exaggerated Report.

The San Francisco Examiner of Tuesday last contained an account of a robbery at the nurses' dormitory of the French hospital of that city, stating that Miss Mary Jamieson, of this city, who has gone to San Francisco to take a course in the nurses' school, had been robbed of \$900.

The apartment is one to which only the nurses are supposed to have access. The police and the hospital officials have concluded, therefore, that one of the nurses must be the perpetrator of the theft.

"As the nurses are all apparently estimable young ladies, the detectives believe that the robbery was committed by a kleptomaniac. There are said to be circumstances that point to one particular nurse, but until further evidence is secured she will not be accused."

Halifax, N. S., July 22.—The troopship Winifred, with the Canadian contingent from South Africa on board, entered the harbor at 3:30 this morning. The ship had a fine run from Durban, the passage being less than 24 days. There was not a serious case of sickness on board, and all are in excellent health and spirits.

Lieut.-Col. Evans is in command; Major Merritt, second in command, and Major Cameron, jr., third in command. The men all appear well and contented. Lt. Carruthers, the hero of Hartley river, has little or nothing to say, and expresses wonder at the fuss the Canadian papers are making over his little exploit. The troops will entrain for the West at two this afternoon. No receipt will be held, at the request of Col. Evans.

Sydney, N. S., July 22.—The Peary relief steamer Windward sails from here this afternoon for the frozen north, in search of the explorer. Dr. Bidgeman, secretary of the Peary club, New York, says the steamer will probably return August 2, and that he expects the first news of his return from the government wireless station on the Labrador coast.

Ottawa, July 22.—Col. George T. Denison has returned to the city from England. He says the feeling is generally in England in favor of preferential trade within the Empire.

St. John's, July 22.—Sir Oliver Mowat entered on his 53rd birthday today in comparative good health, and is receiving many congratulatory telegrams.

Homeing Hedges. Toronto, July 22.—The Queen City Home for the aged, which was started by Decatur, Ill., to Toronto, an air line distance of 610 miles, in 51 hours, was broken up by a heavy storm which made by Canadian pigeons.

Ontario, July 22.—(Special.)—It is expected that Sir John Horne will be superannuated before the next session of parliament. He will be succeeded, as chief of the House of Commons by T. B. Flit, M. P.

Niagara Falls, Ont., July 22.—Joseph Cook and Charles Ester, colored, buried by falling rocks, died of their wounds after a blast had been let off yesterday, 150 feet below surface. Ester died of injuries while on his way to the hospital. Cook has a fractured leg, broken leg and ribs. Both men had been working on the extension of the hole too soon after the explosion.

Ontario, July 22.—Rev. James McAllister, one of the oldest and best known Methodist clergymen in Canada, died yesterday from heart failure. He was about 75 years old, and had been a clergyman since 1880.

London, July 22.—Way's hardware store and contents were badly damaged by fire and water at 8 o'clock this morning. The store was insured for \$15,000 to \$20,000. Insurance \$15,000.

Contingent Arrives

Lt. Colonel Evans' Regiment Reaches Halifax From South Africa.

Peary Relief Steamer Sails North in Search of the Explorer.

Col. Denison Says Preferential Trade Sentiment Growing in England.

Halifax, N. S., July 22.—The troopship Winifred, with the Canadian contingent from South Africa on board, entered the harbor at 3:30 this morning.
