The Reason For This Mighty Slaughter.

For thirty years Mr. Moores has served the people of Campbellton and vicinity—thirty years of straightforward, honest dealing, that has given his store an enviable reputation for selling "satisfaction" as well as merchandise. On account of his health he must close out his stock, and rather than sell it in bulk to some outside party, he will distribute his splendid stock into the homes of the people, at prices that will paralyze all competition and hold the public spellbound with amazement and surprise.

The Toronto Sales Co., known from coast to coast as Canada's greatest bargain-givers, have received explicit instructions to sell M. P. Moores' entire stock at whatever it will bring. When this Sale Co. gets possession of a stock they stop at nothing, till their objective is attained. The irresistible magnet of shattered prices will have this store in record time. Such reductions as has never been witnessed in Campbellton's history—such reductions as may never again be seen on goods of this calibre. Thousands of people will flock here knowing the standard of goods handled by Mr. Moores. Get here with the early crowds. Hundreds of items, no room to mention. Come—find the right spot.
