Crown Lands and Timber Limits.

Mr. Wood (Hastings) said he did not see why the amount paid for crown lands and timber limits could not go direct to the Treasury Department.

Mr. Hardy said that this proposition was a hobby of his own when he entered the department, but he found it would not well work. Many payments came by registered letter to the Crown Lands Department, and of course they fould not be transferred to the Treasury Department without entries being made.

Mr. Marter said too many timber limits were offered for sale. The friends of the Government were in the habit of attending the sales of tumber limits and were not required to take out a license for years. Consequently they did not do to till they had a chance to make a good profit.

Mr. Hardy replied that this charge was totally anfounded. The facts of the case were that the limits when offered for sale, and after paying a small part or perhaps the whole of it down, they did not get out a license till they were ready to go on with the lumbering operations.

Expenditure at Mimico. When the House went into Committee of Sup-When the House went into Committee of Supply Mr. Merèdith objected to the \$7000 asked for sewage disposal works, grading, etc., for the Mimloc cottages. He had examined the contract and found that it required but \$5160.

Mr. Gibson said that the extra amount was for small details, etc., needed, but not mentioned.

Mr. Meredith asked if the Government had the effrontery to ask for money to be expended in ways not authorized by the House, and to expect that their supporters would still back them up, no matter how absurd their demands.

He thought a more economical method to provide the necessary accommodation would be to enlarge the central asylums already established. listed.

Mr. Gibson said that this had not been considered the best means for the reason that the best authorities say it is not expedient to put more than 600 patients under the supervision of

A. N. C. Black, James Poole and J. Hollingshead, introduced by Mr. McColl, M.L.A., were the members of a deputation from the Horse Breeders' Association of Eigin county, which waited on the Minister of Agriculture and the Provincial Secretary, Their request was that the Government would establish a register of horses for sale in the province under the supervision of the Government. This registry system they asked to have connected with local register's in each municipality. They also ask the Government to publish periodical catalogs of the horses for sale in Canada, to be distributed throughout Europe and the States. The Ministers seemed to have grave doubts of the feasibility of the proposition and asked the deputation to present their request in writing to the Government at a later sage.

One of the handiest little things in the world is a blouse. And at the Central Prison.

The Opposition vigorously "slated" the Provincial Secretary for his action in ordering an expenditure of \$15,500 to erect a new building for an extension of industries at the Central Prison.

Mr. Meredith called the attention of the House to a clause in the statute which provided for the expenditure of money in case of urgent for the expenditure of money in case of urgent shed without the permission of the House. But this clause had been utterly disregarded by the Government.

Hon 'I. M. Gibson explained in answer to this that no money had been expended only as obligations had been incurred, and this had been done to keep the convicts at the Central Prison employed. Mr. Wood of Hastings and Mr. Meredith were disposed to second this action of the Government and held that a judicious granting of gratuities was but just and right.

Mr. Gibson stated that when employes of the Government left without an excuse of old age or Leading of gratuities was but just and right.
