CITES CARTIER, DORION PRECEDENT

Senator David Would Have King and Meighen Retire

TO END POLITICAL CRISIS

Montreal Man Resumes Articles In La Presse

MONTREAL, Nov. 11 .- (Canadian Press Dispatch).—Citing the precedent of Cartier and Dorion, who in pre-Confederation days withdrew temporarily before Tache and Sicotte in order that the contending elements in Carta might become unified on the basis of a truly national policy and applying this to the political situation of the present day with respect to both Mr. King and Mr. Meighen, Senator L. O. David, one of Canada's elder statesmen, continues his series of articles on "The Political Crisis" in the French language news paper La Patrie.

Senator David appreciates that this would involve a great sacrifice for both the prime minister and the leader of the Opposition, and he deprecates any suggestion of being disagreeable to Mr. King, but he intimates that if another election is to be avoided this step should be taken. The aged Parliamentarian returns to his suggestion of a body comprising elements of all parties and develops the idea so as to embrace, that of a national committee "having enough ability and patriotism to study the means of effecting an alliance and of giving to the country the energetic and truly national policy of which it stands so much in need.
