One of the most effective vermifuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

—in waste wood which one of my Toronto Saws will readily turn into fine fuel.

There's no piece of farm equipment I know of which will so quickly pay for itself as a Toronto Saw. That's why I recommend it so highly.

Toronto Saws are all-steel construction—require little power to operate—give many years of dollar-saving service.

You can't realize the saving in time, money and labor which you'll make with modern equipment on your farm until you have seen the "Toronto" line. I'll be glad to explain more fully at any time.
