Monsieur St. Pierre's Report is ere now in possession of the Canadian Legislature.

SAVE Us FROM OUR FRIENDS .- The Toronto Examiner, the ministerial organ, in a rather lengthy article on "Statesmanship one like you should have designed and drawn his; but, nevertheless, you are a lucky man. Your plan has been adopted in every feature, and your recommendations have been adopted.

The effect of this announcement upon Charles Bracket was like an electric shock. Objects seemed to swim before his eyes, and he agraped the edge of the bench for support.

Gentlemen, said Mr. White, 1 do not understaind this. What does it all mean?

It means, sir, that this young man has designed a complete and perfect architectural plan for the new State House, and that it has been unanimously adopted by the committee, from among fifty others which they have received from different parts of the gazed upon his former apprentice, when did you do all this?

And that's what kept you up so late every night for a whole week?

Yes, sir.'

Three weeks ago, sir.'

And that's what kept you up so late every night for a whole week?

Yes, sir.'

There's a powerful genius there, sir, said the spokesman of the visitors.

Ap,' returned Mr. White, and there has been deep and powerful applications there, too. Charles Bracket has been with me from a boy, sir, and every moment of his selection in darawer, in his bedroom, and found in the morning only the ashes of burnt paper. It is supposed that a spark of a candle fell among young not have been devoted to the most intense study.

The gentleman looked kindly, flatteringly upon the young man, and then turning to the first parts of the contractors taking at the same nests to enable the work to go on were concluded in the morning only the ashes of burnt paper. It is supposed that a spark of a candle fell among it may ferring to bed, placed £97 in bank notes in the morning only the ashes of burnt paper. It is supposed that the Hon. Joseph Howe,"—says some queer things. The wisdom of Mr. Hincks tossing

IMPORTANNT DISCOVERY.—A Paris journal states that the bad smell and taste of butter may be entirely removed by working it over in water mixed with cloride of lime. The discovery was made by a Brussels farmer, whose practice is to take a sufficient quantity of pure cold water to work it in, and put in it from 25 to 30 drops of chloride of lime for every ten lbs. of butter. Wnen it has been worked until the whole has been brought into contact with the water, it should be worked again in pure water, when it will be found to be as sweet as when first made.

And so would 1. It let 1 you for the series on as supply in perhaps to contract for a good share composition, and I would be able to contract for a good share contract for a good share contract for a good share the contract for a good share the contract for a good share the contract for the contract for
