Some of the Green Mountain boys are determined to get a good minister if one can be found, as the following advertisement proves:

Wanted immediately - one first class Congregational minister, to take charge of the church and society at No. 100 Main Street, St. John, N. B. Good references; and if satisfactory steady employment given.

Immense herds of buffalo have been seen within eighty miles of the Red River, after ten years of total absence. From all accounts the herds are migrating eastward. The Sioux Indians residing at Devil's Lake, in Dakota, have already been on a great hunt, and have returned to their homes with an abundance of buffalo meat and numbers of robes. Travellers from the Northwest, who have lately come into Winnipeg, report very large numbers of buffalo very much farther east than heretofore.

LONDON, Oct. 29. - The British Arctic Expedition, comprising steamers Alert and Discovery, has returned. Progress to the North Pole has been found impracticable. No land was discovered northward 83° 20'. In other respects the expedition was successful.

BOSTON COMEDY COMPANY. - Miss Howard's well-known and favorite troupe is to perform here to-night. The programme is an attractive one - this is a sufficient guarantee of the excellence of the entertainment, as the old favorites Miss Howard, Mrs. Blanche Slader, and Mr. Chas. Theodore, will, we see, take prominent parts.

CUSTOMS SEIZURE. - The American schooner "Nellie May," McDonald, bound to the Bay of Islands from the United States, has been seized by Mr. James Kerr, of the Customs Department, for a violation of the Customs Act, in smuggling goods on the Western Shore. - Chronicle.

We don't know how long General Newton, Chief Engineer of the Hell Gate improvements, has been married, but it must be some time. When a newspaper interviewer asked him if he did not apprehend danger from his proximity to the preparation of the explosives, he said: "I feel safer here than I do at my home." - Danbury News.

HALIFAX MEDICAL COLLEGE. - This college, one of our most vigorous educational institutions, commenced its winter session yesterday. Several important improvements have been made in the teaching department and in the building. There is every prospect of a large attendance this season, and the future of the college promises to be very prosperous. - Chronicle.

LUMBERING ON LA HAVRE. - The late rains have caused the La Have river to rise sufficiently to allow of the bringing in of logs. Messrs. E. D. Davidson & Sons have started a good mill on the site of the one swept away by the freshet last spring. If the weather holds open till Christmas, some millions of feet will be cut from the makings of eleven or twelve million feet in the logs on the way to boom.

RUNAWAY. - On Sabbath last, as the various congregations who worship in this place, were on their way to the different churches, a horse attached to a wagon, started from the front of the Intercolonial Hotel, and dashed up Granville street. When opposite to the Methodist Church, the horse collided with a cow throwing her, and himself down, but fortunately without injury to either of them. After springing to his feet again, he ran into the street leading to the rear of Mr. Chesley's new houses where he was stopped.

The Herald publishes an account of Tweed's sojourn in Cuba. It appears that he was with his companion, Hunt, suddenly landed on the coast near Santiago on the 11th of June; that they went to Santiago, where Tweed was detained until July 25 for the purpose of investigation by the Spanish authorities of his passport, under the name of John Secor, from the American State department, which bore date early in April, some four months after the escape from Ludlow street jail. The escape to Vigo and arrest there are well known. Hunt is now said to be Tweed's brother-in-law Mr. Mogninis, of New Orleans, with whose appearance a photograph of Hunt agrees perfectly.

A fenish attempt to wreck the express running north over the Concord, N. H. Railroad, was made on the 18th inst. As the train, which was an hour or more late, was passing a point about half a mile north of Martin's Ferry, it passed over an obstruction which gave the passengers somewhat of a shaking up, though none of the cars left the track. The train was at once stopped and run back, when it was found that a spruce plank, four or five feet long, three inches thick and about twelve inches wide had been run over. It was evident from what was ascertained that the timber had been thrown upon the track for the purpose of wrecking the train, but no clue to the perpetrators was obtained. As the train passed the spot three men were seen standing near the track, but were not recognized.

IRELAND'S ADDRESS TO AMERICA. - New York, Oct. 20. - A Washington special says the presentation of an address from Ireland to President Grant through O'Connor Power and Parnell, members of Parliament, to whom has been assigned the duty of handing it over, has been deferred. Messrs. Power and Parnell have been informed that, according to etiquette, the resolutions will have to come through the British Minister, and then through the State Department to the President. A great obstacle has been found to the success of the first step, in the wording of certain parts of the resolutions. One part, "having suffered through seven centuries of tyranny, the Irish people make their greetings to the United States and its President," etc. This cannot, it is contended, be passed by without an act of disrespect on the part of President Grant to Her Majesty's representative. The resolutions are magnificent evidences of art and taste, appearing like a plate of purest silver, inlaid with mosaic. They are left in one of the rooms at the White House.

Mayor Stokely of Philadelphia has been informed by the Duke of Richmond, head of the British Commission to the Centennial Exhibition, that Her Majesty's Government intends to present the St. George's House at the Centennial grounds to the city of Philadelphia after the close of the Exhibition.

The English Home Secretary has commuted the sentence passed by the Home Office magistrates on an old widow named Elizabeth Robinson. She had been sent to jail for three weeks for being found in a garden at midnight, with her apron full of new mown hay. This desperate criminal was seventy-six years of age, and of feeble mind as well as body, and having a rheumatic leg, thought she could cure it by obtaining some hay for a bandage.

NEW SCHOONER. - A very handsome new schooner called the "S. D. James," arrived here on Saturday last, from St. John, N. B., to load for Yarmouth, N. S., with apples and produce. She was built at Grand Bay, by Mr. G. Purdy a former resident of this town, and is of that class of vessels known as the centre board, so much used in the United States. Her dimensions are 60 feet keel, 18 feet breadth of beam, 6 feet depth of hold. She was built for a general trader, and is owned by Mr. Alfred Hoyt, of Grand Bay, N. B.; S. D. James, of Tupperville; John Brooks and John Wagstaff, of Centreville; and Mr. Purdy, her builder, who is also her Captain. The cabin is large, and fitted up with more than ordinary expense for such vessels. The "S. D. James," reflects credit on her builder, and owners.

WANTED. - WE WANT reliable, energetic canvassing agents in every town in the Dominion for the new "Illustrated History of the Dominion of Canada." This work is truly magnificent, containing over 2,000 superb full-page engravings. The work is published in Paris, on a plan which insures its welcome to every English reading family. To energetic young men or ladies, who are willing to work, we will guarantee a permanent position for life, and good pay. Don't fail to write for our private terms, sample pages, etc. This is a grand opportunity for school teachers to make more than double their salaries without interfering with their professional duties. The work is being manufactured at a cost of over \$20,000 for the literary, artistic and mechanical work of producing the plates, by the one well-known, reliable Lovell Printing and Publishing Co., of Montreal. All letters from agents must be addressed to the Publishers' general agents as follows:

Hazen B. Bigney & Co., 28 and 30 St. Francis Xavier Street, Montreal, Que., Sept 12/77

NEWSPAPER CHANGES. - As previously intimated, there are to be several important changes in newspaperdom within the next few months. For instance, Mr. Duncan Grant, of the Fort Hawkesbury "News of the Week," takes the "Eastern Chronicle" of New Glasgow, while Mr. McConnell, at present of the "E. Chronicle," takes the "Citizen" of this city. Thus two of the three papers mentioned are disposed of, but it is not known who takes charge of the Hawkesbury News, and there is similar uncertainty as to what becomes of the "Annapolis Farmer" and "The Star." Mr. Fisher, at present of that paper, will in a very few weeks make his bow to the people of Colchester and Truro in particular. And then our ambitious neighbor will have two papers to record its operations and advocate its interests. The arrangements for the publication of a second paper at Truro have been in progress for some time, and a satisfactory understanding has been arrived at. The "Sun" will have to look to the laurels it has won as a fairly good county newspaper, for our friend "Farmer" has had much experience, having been the publisher of papers in half the counties of the province. - Herald.

We understand that a former resident of this county, but who has been in the United States for ten years, is about to publish a paper at Annapolis. Possible he may do something for the "Farmer."

A REMARKABLE FEMALE DWARF. - A large number of physicians went to Tony Pastor's Theatre lately to see the Mexican dwarf, Lucia Zarate. They measured her, and ascertained her height to be 21 inches, her feet to be 3 inches long, her legs below the knee 4 inches in circumference, and her hands an inch and a quarter broad. Her mother, who is a resident of a medium size, says that Lucia is twelve years old. Her face is older than that. Her features are Spanish, and her complexion dark. Her activities are incredible. She played pranks with the physician and talked fast in Spanish. She stepped into a high silk hat, crouched down, and was out of sight accepting her head. She squeezed one of her pliable little hands through a rather large finger ring. The hand of an adult made an ample seat for her. Standing on a chair, and holding to the back of it, her fingers struck through the space in the cane work - holes that just admitted the passage of a small pebble. She was not weighed, but the weight is said to be 5 lbs., and, poised in the hand, she does not seem heavier. Her clothing is comically small, as though intended for a doll, the shoes and stockings especially being top-like. Tom Thumb has grown appreciably since he was exhibited by Barnum; but when he first astonished the public he was twice as large as Lucia, and he was then above her present age. She has not grown "any," her mother says, since she was a year old.

FROM SABLE ISLAND. - STEWART AND LOSS or LIFE. - Capt. Purdy, of the Government steamer "Newfield," which arrived on Saturday afternoon from Sable Island, reports that during the heavy N. W. gale of Monday, Oct. 16th, a schooner of American build, which was supposed to belong to Eastport, Me., was observed to strike on the bar at the West end of the Island, and soon afterwards went to pieces. All hands were lost. Five bodies and part of the wreck were washed ashore. The vessel's cargo consisted of herring, which were taken in either on the Newfoundland or Labrador shore. 150 barrels of them were saved on the beach. The health of the Island was good when the steamer left. - Chronicle.

EUROPE.

LONDON, Oct. 28. - The Arctic expedition, just returned, has made a rich collection in natural history and valuable scientific observations taken. Excellent coal was found near the North Pole. The Expedition experienced the coldest weather ever registered, the temperature being 59 degrees below zero for a fortnight, and falling once to 104 degrees below freezing point. A sledge party reached within four hundred miles of the North Pole.

There is a crisis in the Servian Ministry. Minister of War Nicolich has resigned in consequence of General Tchernayeff's resignation. Prince Milan refuses to accept his resignation.

The Eastern news is pacific. Gen. Ignatieff, has intimated the willingness of Russia to assent to the six weeks armistice with successive prolongations proposed by the French. Negotiations are now in progress for which the Porte stipulated, that all the powers should concur in recommending the armistice.

LONDON, Oct. 28, p. m. - The Servian Cabinet difficulty is in a fair way of being settled. The Times says the feeling that war is staved off, at least for the winter, has inclined stock operations for a rise.

New York, Oct. 28. - The steamer "Alert," and "Discovery," of the Arctic expedition, have arrived at Queenstown.

There is great suffering in India from scarcity of food. Cattle sell for a few pence each on account of lack of water.

The Constantinople correspondent of the Daily Telegraph is informed that the Sultan has accepted the armistice without conditions.

The state of the Servian army is indescribably distressing; no force has undergone such suffering since the retreat from Morava. Tchernayeff seems apprehensive of disaster, and has warned the inhabitants of all villages in the rear of Deligrad to leave. Operations on the part of the Turks have been suspended since Monday. Rain prevented the troops from marching.

Berlin, Oct. 28. - The German imperial parliament was opened to-day. The Emperor in his speech says Germany's foreign relations, notwithstanding the difficulties of the present political situation, are fully in accord with a pacific policy. His constant endeavor is to preserve friendly relations with all powers, especially those connected with Germany by ties of neighborhood and history, and so far as peace may be endangered among such, to preserve it by friendly mediation. Whatever the future may have in store Germany may rest assured that the blood of her sons will be sacrificed or risked only for the protection of her own honor and interests.

LOCKPORT. - LOCKPORT, Oct. 28. - The schooner "Morning Star," Forbes master, 28 tons, from New York, struck a shoal, struck the near Little Hope Light, at 3 o'clock this morning, and sunk in seven fathoms of water. Her cargo consisted of three hundred quintals of green ash. The crew were saved.

Some Scotchmen have gone to found a colony and harbor of refuge for the Desire on the coast of Patagonia. It is to be named "New Scotia," near Cape Horn, which has hitherto had to make for the river Plate or Rio.

The inquiry into the assassination of General Prim, which began in Madrid, December 27, 1876, has at last come to an end. Eighteen judges have been killed under it, and the documents amount to 12,000 folio pages. One hundred and twenty persons with all degrees of whom forty have never been arrested, six have died during the inquiry, and twenty are still at large. But like a piece of positive proof against anybody has been found.

YOUTHFUL HEROISM. - On Tuesday a lad six years of age, a son of Benj. Benson, while playing on Messrs. Chandler Bros. wharf fell overboard and would not doubt have drowned had it not been for the extraordinary heroic conduct of a little Francis, only 15 years of age, a son of the late Joshua Francis. He saw from the opposite wharf the boy struggling in the water and without removing any of his clothes jumped over the wharf and after a severe struggle succeeded in catching the drowning lad as he was sinking the last time. He managed to keep him above water until help arrived when they were both rescued in an exhausted condition. A purse of \$15 was collected and presented to the brave little fellow by the instrumentality of Mr. J. F. Chandler. - Windsor Mail.
