

Fig. 2026. Discs of Tarred Paper.

Best, Livingston's Favorite, Matchless, and Baltimore Prize Taker.

There are many varieties of this vegetable which are almost equal in excellence and productiveness. Spark's Earliana is a promising early sort tested this year.

Turnips.—Early: Extra Early Milan and Red Top Strap Leaf. Swedes: Champion Purple Top, Skirving's Improved.

The maggots which attack the roots of cauliflowers and cabbage often make these vegetables very difficult to grow, as there are few practical and satisfactory remedies. As long ago as 1889, tarred-paper cards, or discs were used as a preventative against these insects, and although they have proved very successful when properly handled, they have not come into general use in Canada. They are known as the Goff tarred-paper cards, as they were first described by Prof.

(white), Empire State (white). Late: Late Puritan (white), American Wonder (white), Rural Blush (pink).

Radishes. — Early: Rosy Gem, French Breakfast, Red Rocket (red) and Icicle (white). Late: White Strasburg, Long White Vienna. Winter: Long Black Spanish, Chinese Rosecolored.

Rhubarb. — Linnæus and Victoria are the most satisfactory.

Salsify.—Long White is the best.

Spinach. — Victoria and Thick-leaved are the best.

Squash. — Early: White Bush Scolloped and Summer Crook Neck. Late: Hubbard.

Tomatoes. — Early: Conqueror, Dwarf Champion, Canada Victor and Early Ruby. Main Crop: Brinton's

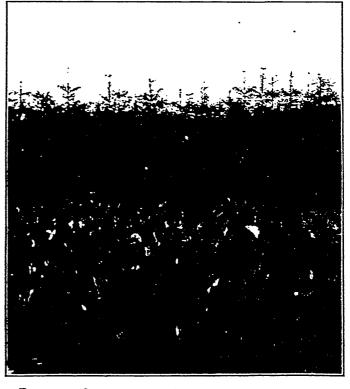

Fig. 2027. Cauliflower at Central Enperimental Farm, Gef tarred paper cards used. No eards used.
