PROTECTION FROM LIGHTNING!! BY E. V. WILSON AND H. PIPER & BROTHER, ELECTRICIAN AND ELECTRO-METALLURGISTS, AT THEIR WHOLESALE AND RETAIL.

Lightning Rod Manufactory, On Yonge St. between King and Adelaide Sts., TORONTO, C. W.

At which place we beg to offer our Superior Spiral Twisted Annealed Iron Lightning Rods, with Zinc Protector, and Electro Positive Elements combined in their Manufacture, thus rendering them equal to Copper as conductors. They are in ten, twelve, and fourteen feet lengths, with accurately fitted brass screws connecting joints, an entire new style of metallic attachments for brick or frame buildings, also, Glass Insulators of a novel and ingenious construction, forming a lock. The whole mounted with a solid platinum Silver Point, fourteen inches long, surrounded at the base with three angular negative magnets, which possess the power to an extraordinary extent, of discharging the opposite elements of the most fearful thunder storm, and embrace the entire perfection of science up to the present time. The whole constituting the most magnificent and perfect Patent conductor ever presented to the public. The public are cautioned against purchasing Rods of any person or persons unless they possess a certificate of agency, signed E. V. Wilson, L. R. Agent, and their sample Point, stamped Spirit's Reproducing Patent, 1850, as we are not answerable for rods put up by any person unless they have our certificates as above. Your attention is called to the above caution from the fact, that several parties have offered to the public an inferior article, plated, tinued, and otherwise glossed over, when in truth they are not worth anything as Electric Points, nor do the parties offering them know anything about the laws of electricity, consequently it is dangerous to employ ignorant men to protect your buildings and your lives.
