

Sebastopol Tp
Clear Lake In the township of Sebastopol, at the lower northwest end of Clear Lake, near the outlet, there is a large quantity of marl, the depth of which has not yet been proved, and it occurs also in several small lakes adjacent. This locality is about eight miles from the Canada Atlantic railway at Eganville.

MacKay Lake
New Edinburgh On the shore of Hemlock or MacKay lake in New Edinburgh, Ottawa, marl has long been known to exist, extending over 100 acres or more with a depth of at least five feet. The deposit is, however, largely covered with soil and forest growth, but has been locally used to some extent in the manufacture of white bricks.

The localities mentioned for the province of Ontario do not profess to describe the occurrences of marl for all portions of the area. Doubtless many deposits occur at various localities, the details of which have not yet reached this Department, but sufficient has been stated to show that the material exists over a great area and frequently in very large and economic quantities.

West
Hawksbury In the vicinity of the Ottawa river, on lot 18, range IV, west Hawksbury, there is a deposit the extent of which has not been definitely determined, but it is known to extend over an area from five to ten acres, with a proved depth of 2 to 4 feet, and covered with peat for four feet. It has been locally used as a fertilizer by the settlers in the vicinity.

PROVINCE OF QUEBEC.

In the province of Quebec, marl deposits, while not so widely distributed as in Ontario, are also found at points from the western limit to the peninsula of Gaspé.

Argenteuil
near Lachute In the township of Argenteuil, lot 3, range I., marl is found occupying the basin of a lake, in depth from five to thirteen feet, overlaid by about nine feet of peat. The area of the overlying peat is about 22 acres. On the same lot, another peat-bog with an area of half a mile from east to west and a breadth of 150 yards occurs underlaid by marl which has a depth of 12 feet. The locality is not far from the line of the Canadian Pacific railway at Lachute.

Wentworth Tp
Eagle Nest
Lake On lot 22, range VIII, Wentworth township, marl is reported as occurring in the bed of Eagle Nest lake, which is a short distance south of 16-Island lake, the quantity not
