#### THE LIBRARY.

Several new publications have been added to our exchange list during the year, some of which are valuable contributions to current scientific literature. There has been quite a demand for back numbers of *THE OTTAWA NATURALIST*, and in most cases the requests were for a number of volumes. The most important exchange was a shipment of 10 volumes to the Natural History Museum of Hamburg, Germany, for which we received a number of volumes of their Society Bulletin, which is an excellent one.

The Club Library at present contains a number of extremely valuable books, bulletins and periodicals, which, at present, are little used, owing to the lack of an index. It is hoped, however, that an arrangement will soon be made whereby a suitable cataloguing of the exchanges will be maintained.
