"The Crying Want is better education of the public in hygiene."—*Med. and Sur. Reporter, Philadelphia.*

"To prevent disease is the most important aim of the science and art of Medicine."  
—*Sir Wm. Jenner.*

THE purpose of this Journal is to diffuse a knowledge of the Laws of Health among the people. To make prevention rather than cure the first object of both the physician and the public. Cooperation and assistance are respectfully solicited from all who are interested in the future well-being of the Canadian people. Will you assist in this important Work?
