

NEWS AND NOTES.

It seems to be pretty well understood that children must be sick at times, we would say to all anxious mothers that Nestle's Milk Food is an excellent preventative of cholera infantum, and all such complaints so common to children.

**DON'T OVERWATER.**—After the freedom in watering that was allowable in dry summer weather, there is a tendency to overwater plants after operations begin indoors. At no time of the year is growth so slow as during this and the two following months, consequently less water is needed than at any other time. Remember this.

**IRON.**—The Iron in Estey's Iron and Quinine Tonic is in a form and in a chemical condition easily broken up and assimilated by the blood; and being combined with pure Sulphate of Quinine and Sherry Wine, forms an agreeable and pleasant Tonic and Invigorator to the whole system.

Horseradish will prevent pickles from moulding. Cut in little round slices a piece of horse-radish root as large as your finger, and twice as long, and throw into a two-gallon jar of sweet pickles just before setting it away, and you will find them all right when you go in haste to get a dishful for the table.

**CONTRIBUTORS.**—Who hath sun-burns? Who hath bad complexion? Who hath chafing? Who hath soreness of lips? Who hath rough hands? Who hath soreness of chin after shaving? They who use not Philoderma!

A club-room where periodicals can be found and whose walls are covered with the efforts of members, is now one of the places of relaxation in Munich. It is maintained by American art students.

If you are going to set a new orchard next spring remember that it is an excellent way to prepare a plan of the orchard, showing the position of each tree, its variety, &c. If a tree die it can be replaced by one of the same sort. Some fruit-raisers keep a book in which they register the age and variety of every tree in their orchard, together with any items in regard to grafting, treatment, &c.

Catarrh—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon treatment for catarrh. Out of 2000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of the patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—*Montreal Star.*

A GREAT WANT SUPPLIED

The consumers of Kerosene Oil, will find it to their advantage to buy LUXOR OIL, as it is without doubt the purest Oil to be had. By actual comparison it will be found as white as water. This is obtained by removing all impurities from the ordinary oil. As it will burn one-fourth longer and gives a clear brilliant flame, emitting no smoke or odor. To those using COAL OIL STOVES it is highly recommended, as it will give greater heat and will do more cooking for the same money. For sale in barrels and cases, two cans in a case.
