

Barrett Specification Roof, guaranteed for 20 years, on the Technical School, Quebec, City, Que. Architects: Tanguay & Lehon, Quebec City, Que. General Contractors: Finchereau & Lamonde, Quebec City, Que. Roofing Contractor: Eugene Falardeau, Quebec City, Que.

## A permanent roof for a permanent building—

THE type of roof to be used on a job like this cannot be decided on the basis of individual preference. Nor can experimenting be tolerated. For the investment is too large and the consequences of a mistake are too serious. When architects and engineers face a roofing job like this, they have to get right down to *proved facts and figures*. They have to be absolutely sure on four points.

*First.* That from start to finish they will get just the kind of a roof they specify, with no chance for "skimping" or substituting inferior materials.

*Second.* That the manufacturer of the roofing materials is thoroughly reliable, and has had long and successful experience in the roofing business.

*Third.* That the roof will positively be trouble-proof and free from maintenance expense for a long period of years.

*Fourth.* That it shall be the most economical roof possible to obtain, not as to first cost, but what is of greater importance, as to *cost per year of service*.

Because a Barrett Specification Roof meets all of these requirements better than any other type of roof, it was selected to cover this splendid building.

To-day the *standard* covering for permanent buildings

is a Barrett Specification Roof. It takes the base rate of insurance. It costs less per year of service than any other type of permanent roof. It is guaranteed for 20 years.

### The 20-Year Guaranty

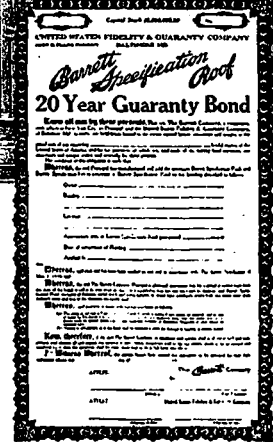

A 20-YEAR Surety Bond is now offered on all Barrett Specification Roofs of fifty squares and over in all cities of 25,000 population and more, and in smaller places where our *Inspection Service* is available.

This Surety Bond exempts the owner from all expense for repairs or upkeep on his roof for 20 years. It is issued by a well-known Fidelity and Guaranty Company.

Our only requirements are that The Barrett Specification dated May 1, 1916, shall be strictly followed and that the roofing contractor shall be approved by us and his work subject to our inspection.

Thus, in spite of the fact that we do not build roofs ourselves, we are put in a position where we can actually *guaranty* the delivery of the long years of service which Barrett roofs are capable of giving.

Copies of the Barrett Specification with roofing diagrams sent free on request.

This is the bond that guarantees your roof for 20 years.
