Reliable Shingle Stains

Shingle stains can be as cheap and worthless as the maker's conscience will allow. Kerosene is the favorite cheaper, mixed with coarse and adulterated colors. Such stains are not worth applying, because they cost as much to apply as good stains, and the colors wash off and fade, and your shingles are made dangerously inflammable. Don't accept any stain that smells of kerosene or benzine.

Cabot's Creosote Stains

are made of refined Creosote and no kerosene. The colors are lasting, clear, and beautiful. They are the original and standard shingle stains, and every gallon is guaranteed.

You can get Cabot's Stains all over the country.
