## Gas Heating Means Efficiency

Business is better, errors are fewer and customers are better served when the temperature of your store, office or factory is around 68 degrees.

This is because this temperature is the point of maximum human efficiency. Gas heating installations allow you to regulate your heat to a degree—you use the exact amount of heat you require and waste none up the chimney.

Proper ventilation means increased efficiency in your business. Keen business men are recognizing the value of this fact and are installing gas heaters to meet their problems.

Be ready for the cold before the cold comes.

## Men's Hand Tailored Suits Ready for Service

The advantages in wearing custom-made clothes are oftentimes counterbalanced by tiresome try-ons, unnecessary delays, higher costs and uncertainty as to the ultimate satisfaction. You may escape these annoying conditions and sacrifice nothing in quality by buying regular bench tailored clothes from the Hudson's Bay Co., ready for service. We feature two exceptionally fine suits, one a fine blue worsted and one a conservative plain grey, at a price decidedly reasonable for first-class, hand-tailored clothes.
