

However, in respect of inspectors needed for the activities provided for in Article 48 and to carry out ad hoc inspections pursuant to Article 71(a) and (b) the designation procedures shall be completed if possible within thirty days after the entry into force of this Agreement. If such designation appears impossible within this time limit, inspectors for such purposes shall be designated on a temporary basis.

ARTICLE 86

The Government of Canada shall grant or renew as quickly as possible appropriate visas, where required, for each inspector designated for Canada.

CONDUCT AND VISITS OF INSPECTORS

ARTICLE 87

Inspectors, in exercising their functions under Articles 48 and 71 to 75, shall carry out their activities in a manner designed to avoid hampering or delaying the construction, commissioning or operation of facilities, or affecting their safety. In particular, inspectors shall not operate any facility themselves or direct the staff of a facility to carry out any operation. If inspectors consider that in pursuance of Articles 74 and 75, particular operations in a facility should be carried out by the operator, they shall make a request therefor.

ARTICLE 88

When inspectors require services available in Canada, including the use of equipment, in connection with the performance of inspections, the Government of Canada shall facilitate the procurement of such services and the use of such equipment by inspectors.

ARTICLE 89

The Government of Canada shall have the right to have inspectors accompanied during their inspections by representatives of the Government of Canada, provided that inspectors shall not thereby be delayed or otherwise impeded in the exercise of their functions.

STATEMENTS ON THE AGENCY'S VERIFICATION ACTIVITIES

ARTICLE 90

The Agency shall inform the Government of Canada of:

- (a) The results of inspections, at intervals to be specified in the Subsidiary Arrangements; and
- (b) The conclusions it has drawn from its verification activities in Canada, in particular by means of statements in respect of each material balance area, which shall be made as soon as possible after a physical inventory has been taken and verified by the Agency and a material balance has been struck.
