EXTERNAL AFFAIRS

ISRAELI ATTACK ON NUCLEAR REACTOR IN IRAQ—MOTION UNDER S.O. 43

Mr. Douglas Roche (Edmonton South): Madam Speaker, the Israeli attack on a nuclear reactor in Iraq is an event of utmost importance with respect to world security. The entire world has reason to feel the deepest concern for global safety. Therefore I move, seconded by the hon. member for Dartmouth-Halifax East (Mr. Forrestall):

That this House expresses its deepest concern to the government of Israel with respect to the attack and reported destruction of a nuclear reactor in Iraq, and urges all governments in the mid-East and elsewhere to moderation in any contemplated response, and to put foremost the safety of mankind in the increasingly dangerous nuclear age.

Madam Speaker: Is there unanimous consent for the introduction of this motion?

Some hon. Members: Agreed.

Madam Speaker: Hon. members have heard the proposed motion. Is it the pleasure of the House to adopt the said motion?

Some hon. Members: Agreed.

Motion agreed to.

THE ECONOMY

CANADIANIZATION OF INDUSTRY—MOTION UNDER S.O. 43

Mr. John McDermid (Brampton-Georgetown): Madam Speaker, the reports from the Grit policy meeting on the weekend indicate that Canadianization of industry will take place in much the same way as the energy Canadianization has been carried out, namely, state ownership.

Under Standing Order 43, I move, seconded by the hon. member for Parry Sound-Muskoka (Mr. Darling):

That this House advise the government that any program to Canadianize industry be so designed as to encourage individual Canadians to purchase companies and shares in companies located in Canada and not to purchase

industries by a government-controlled corporation such as the Canada Development Corporation or a new Crown corporation created for that purpose.

Madam Speaker: Is there unanimous consent for this motion?

Some hon. Members: Agreed.

Some hon. Members: No.

INDIAN AFFAIRS

FUNCTIONING OF SEWAGE SYSTEM IN FORT RUPERT, QUE.—MOTION UNDER S.O. 43

Mr. Lorne Greenaway (Cariboo-Chilcotin): Madam Speaker, I rise under the provisions of Standing Order 43. The Cree village of Fort Rupert in northern Quebec is finally acquiring a new sewage system. However, the Cree are now faced with the problem of having insufficient electrical power to run the system. Several weeks ago, as a result of plugging in a four-slice toaster at the construction camp, the electrical system for the entire village was shorted out. This is particularly ironic, given the fact that Fort Rupert is in close proximity to one of the world's largest hydroelectric plants. Therefore, in light of the urgent need for a functioning sewage system and that such a system will not operate without sufficient electrical power, I move, seconded by the hon. member for Bow River (Mr. Taylor):

That this House instruct the Minister of Indian Affairs and Northern Development to provide the necessary electrical infrastructure to the village of Fort Rupert as stipulated in the James Bay and Northern Quebec agreement in order that the sewage system may operate.

Madam Speaker: Is there unanimous consent for this motion?

Some hon. Members: Agreed.

Some hon. Members: No.

AVIATION SAFETY

DUBIN REPORT—APPOINTMENT OF COMMITTEE TO DRAFT IMPLEMENTING LEGISLATION—MOTION UNDER S.O. 43

Mr. Ray Skelly (Comox-Powell River): Madam Speaker, I rise on a matter of urgent and pressing necessity pursuant to the provisions of Standing Order 43. Whereas the report on aviation safety by Justice Dubin identifies areas of serious safety problems such as patterns of accidents, the role of senior
