

April 4, 1933.

Dear Mr. Parkin,

I enclose the 100 notices of the  
Coupland Lecture, as arranged over the telephone.

I am also taking the liberty of  
enclosing 100 of the Salter Lecture as well.

We have circularized the members  
of the McGill staff with both these announcements.  
So that if you can avoid duplication it will be  
appreciated.

Will you send me back any you  
have left over?

Yours faithfully,

Secretary to the Principal

Mr. G. R. Parkin,
