NOVEMBER—

And the Winter Campaign

November is pre-eminently the month in which Canadians prepare for winter. From now until next May we are apt to get weather with a capital W—therefore this is the time to get ready for all possible weather contingencies.

This page will show you that Monday will be an excellent day to start preparations.

Correct to the Last Detail

It's the little things that count in the making of a well-groomed man. The turn of a lapel, the position of a pocket, will make or mar the effect of the finest suit, the hang of a shoulder or the width of the collar is important to the success of an overcoat.

You can judge best of the fit and materials in suit or coat after it is made; hence our ready-to-wear clothing has particular claim to your notice. The materials are right, the cut is that authorized by the large tailoring concerns at home and abroad; the values are so wonderful that prices seem almost extremely low. But your class of clothing is here, ready for you to try on and judge. Our staff is always pleased to show you whatever you care to see, and no effort is wasted if you are pleased.
