DEGREE FOR KING EDWARD.

Will Be Created D.D. by University of Pennsylvania on Thursday.

Philadelphia, April 17.-King Edward VII of Great Britain, thru Sir Mortimer Durand, his ambassador, will receive the degree of doctor of laws from the University of Pennsylvania on Thursday at the university's observance of the bi-centenary of the birth of Benjamin Franklin

Andrew Carnegie, Sir George Howard Darwin, Plumian professor of astro-nomy and experimental philosophy, University of Cambridge, Eng.; Guglielmo Marconi, inventor and investi-gator; Ernest Rutherford, professor of Bator; Effest Rutherford, professor of physics, McGill University, Montreal; Edward Leamington Nichols, professor of physics, Cornell University; Alois Brandl, Royal Academy of Sciences, Berlin; H. A. Lountz, a distinguished physicist of Holland, will also receive honorary degrees.

BIG PRIZES FOR WHEAT.

Winnipeg Industrial Fair Offers \$200 as First Award.

Winnipeg, April 17 .- As due recogni- state co tion of wheat-growing as the leading industry of Western Canada, the Winnipeg Industrial Fair board will hang up prizes for that cereal this year aggregating \$500.

The first prize will be \$200, which is believed to be the largest award for ex- terday adopted.

PACKERS CHEAT RAILWAYS. Believed to Owe Lines Out of Chicago Five Millions of Dollars. Chicago, April 17 .-- The Tribune to-day says: Railroad officials openly charge that the big packing corporations for

years have been cheating the railroads mis-stating the character of the goods they were shipping, and by ship-ping heavier packages than the bills of lading called for. They assert that other big shippers in the east also are doing things that have helped to dimin-ish the revenues which the railroads-ought to have a procled

ish the revenues which the railroads ought to have received. It has been estimated by the railroads that the packers alone beat the east-ern roads out of \$150,000 a year. What they owe all the railroads, out of Chi-cago is problematical, but it is estimat-ed at \$5,000,000. The railway men say they have known all these things for years, and in a way have remonstrat-ed with the packers and other compa-nies which were cheating them, but they have made a determined effort to bring about a great re-form, and they intimate strongly that unless the shippers make restitution there will be an expose before the intar-state commerce commission.

AGAINST PROPOSAL Library Association Opposed

Control by School Boards. The Ontario Library Association yes-

Washington, / April 17.-President Roosevelt to-day transmitted to congress an important message relating to insurance legislation. Accompanying the message were the report and ing the message were the report and recommendations of the insurance convention, which was held in Chicago last February. Among the recommen-dations is the draft of a bill which congress is urged to enact into law, with such amendments as its wisdom may success. with such amendments as its wisdom may suggest. The president urges the enactment of the proposed measure, as, he says, "we are not to be pardoned if we fail to take every step in our power to prevent the possibility of the repeti-tion of such scandals as those that have occurred in connection with the insurance business as disclosed by the Armstrong committee." The text of the message follows: **Text of Message.** To the Senate and House of Repre-sentatives: Feed Wires Will Be Run From

spirit refuses to de. velop, no matter

> lations, with accomp aters, of the insurance convention

which met in February last at Chica-go. The convention was called be-cause of the extraordinary disclosures of wrongful insurance methods recent-ly made by the Armstrong legislative committee of the state of New York, the suggestion that it should be called committee of the state of New Fork, the suggestion that it should be called coming to me originally from Governor John A. Johnson of Minnesota, thru Commissioner of Insurance Thomas D. O'Brien of that state. The convention consisted of about 100 governors, at-torney-general and commissioners of insurance of the states and territories of the union. The convention was seek-to accomplish uniformity of insurance to accomplish uniformity of insurance legislation throout the states and ter-ritories, and as a prime step toward this purpose decided to endeavor to secure the enactment by the congress of the United States of a proper in-surance code for the District of Co-lumbia, which might serve as a model for the several states. Before adjourn-ing, the convention appointed a com-mittee of three attorneys-general and twelve commissioners of insurance of welve commissioners of insurance of

twelve commissioners of insurance of the various states to prepare and have presented to congress a bill which should embody the features suggested by the convention. The committee re-cently met in Chicago and in a thoro and painstaking fashion sought to pre-pare a bill which should be at once protective of policyholders and fair and just to insurance companies, and which should prevent the graver evils and abuses of the business and at the same time forestall any wild or dras-tic legislation which would be more

tic legislation which would be more harmful than beneficial. The proposed PRAYS TO WHITE MAN'S GOD

DesMoines, Iowa, April 17.—The In-ter-Urban and DesMoines City rail-ways have decided to go into the busi-ness of selling current for light and DesMoines, Iowa, April 17 .- The Inness of selling current for light and outlet for great majority of people o

ness of selling current for light and power along the companies' lines, and will commence taking business as soon as the installation of sub-stations is completed, and the transmission plants are placed in position. A set of rates for metered service will be established and feed lines run to the farm premises along the road, over which the current will be sup-plied. By the transmission plant this will be changed over so that it can be used to drive motors or supply light. It is figured that many farmers will buy the service and use it to grind corn, cperate feed mills, pump water, run separators, churns, etc. The plants will ultimately be equip-

separators, churns, etc. The plants will ultimately be equip-ped so that the company will be able to supply this power to all consumers desiring it for a radius of a couple of miles from the line of road and to the residents of the smaller towns where there is no independent service. The plans are now pretty well ma-tured and the probabilities are that the supplementary services will be inaugur-ated in about sixty days. The current will be carried over the feed wires of the Inter-Urban Company to the trans-mission plants and supplied thru these to the farm leads. Many enquiries for the service have

mission plants and supplied thru these to the farm leads. Many enquiries for the service have already been received from farmers, and the indications are that within a very short time much of the power work along the line and practically all of the house lighting will be done with electricity.
