THE BEST PRESS EVER OFFERED TO CANADIAN COUNTRY PRINTERS.

NOTE A FEW POINTS OF EXCELLENCE :

1. There is no gearing on the feeder's side of the press, the feeder can stand close to the press and be absolutely safe from all danger of being injured.
 2. The form rollers are geared, thus insuring perfect inking of forms.
 3. In this press all side levers are dispensed with.
 4. There is never any oscillation of the bed which is absolutely rigid when the impression is taken, it being automatically locked; also the impression can be quickly changed at any corner of the bed.
 5. The cylinder is held to the rails by a new double spindle cross head, which prevents any cramping which might possibly be in the single spindle head.
 6. All gears are cut from the solid block, which insures a smooth running press; also the cylinder racks are cut from a solid steel bar.
 7. The gripper motion is geared, hence is positive, thus making the register line absolute.
 8. It is the easiest running press offered to the printer—a boy can easily run it. It has five ink rollers; 3 2-in. distributors and 2 3 in. form rollers, and gives a good distribution; also each press is fitted with a first-class well ink fountain.
 9. The forms can be corrected on the bed of this press with less trouble than any other cylinder press made.
- Each press will be complete with a full set of cast rollers, or two roller moulds, cylinder blanket and a full set of wrenches.
