TRINITY COLLEGE, TORONTO.

BIOGRAPHY OF THE LORD BISHOP.

INTIMATELY associated with the educational movement in this Province, from the earliest efforts made by the patriotic Governor Simcoe, to the present moment, we find the name of our Venerable Bishop. Indeed it may well be said of him, that he has been the instrument in the hands of God for the good of his people in Upper Canada; for under his direction and energetic example, combined with sound judgment and great discriminating power, the men were produced who, in every position of life, have carried on the work of progression, and secured the prosperity of this country from the elements by which they were surrounded. This may happily be said, without fear of just contradiction on the one hand, and without the charge of sycophancy on the other. The favour of their Sovereign has rewarded some of those of whom we speak, with offices of the highest trust, and the voice of the nation bears witness to the ability and faithfulness with which the duties appertaining to those offices have always been discharged; while the position they hold, and the reputation they enjoy, place them beyond the need of praise. Others there are who have done good service to the state, and have passed to their rest; and others remain, who may yet be required, and will still be
