

BULLET PIERCED CLEMENCEAU'S LUNG; CONDITION GOOD

Refused to Go to Bed and Was Allowed to Spend Short Time in Garden.

BULLETINS GOOD

Condition Will Permit of All Important Questions Being Referred to Him.

Paris, Feb. 20.—The bullet which wounded Premier Clemenceau penetrated his lungs, it was revealed by the official statement issued shortly after noon today.

The official statement reads: "The hemorrhage which occurred at 1 o'clock yesterday, demonstrated that the bullet penetrated the lungs. An X-ray examination disclosed the precise location of the bullet.

"The general condition is satisfactory. Temperature 98.4; pulse 72. The nourishment is normal."

A bulletin issued at 4.50 o'clock this evening by the attending surgeon said:

"M. Clemenceau's condition continues satisfactory. Pulse 74; temperature 37 (centigrade), (98.6 Fahrenheit)."

The announcement made in the first official bulletin caused some anxiety in the immediate surroundings of the premier at his home, and the news that his condition was more serious than at first reported spread quickly through Paris, causing widespread expressions of sympathy.

The premier, however, bore up remarkably well, during the morning, refusing to return to his bed, and receiving numerous callers.

Allowed in the Garden. M. Clemenceau was permitted to spend a short time in his garden today. Dr. Tuffier, after seeing the premier, asserted that, considering the nature of the wound, the condition of M. Clemenceau could not be better.

It appeared probable the bullet would become encysted without complications but any case there could not be a question of extracting it.

The detectives and bodyguard, Valentin Daumal, Berger and Gallet, who have been in continual attendance at the home of Premier Clemenceau since he became seriously ill, were very much chagrined today because of criticism aimed at them, indicating that they have been negligent in the reports and sent for the detectives and bodyguard and told them that he was perfectly content with the manner in which they were performing their duties.

Daumal, in relation to the Associated Press said: "The premier is a very difficult man to keep quiet. He always looked upon us as a necessary nuisance, but God knows we did our best. It feels good, however, to hear him tell us so."

Colleagues Deeply Affected. While Premier Clemenceau's colleagues in the government have been deeply affected by the attack upon him, they are greatly regretful that he is unable to continue his ordinary activities, they are consoled in part by the fact that his condition is such as to permit of referring all important questions to him, so that the necessary decisions will only be slightly delayed.

The newspapers today devote virtually their entire space to the assault, which they brand as the stupid action of an imbecile, and expect soon to resume his great task and carry it to completion.

In the chamber of deputies this afternoon, Premier Clemenceau's words were very frequent during the war and numerous recoveries were recorded. Therefore it is hoped that unless complications arise a few days will see the patient restored.

It is understood, according to the Temps, that M. Clemenceau may be able on Friday or Saturday to receive Mr. Balfour and Mr. Lloyd George.

King Alfonso of Spain has sent the following message to President Poincaré:

"You are well aware of my sentiments toward France. You can therefore understand my deep indignation at the odious attack on M. Clemenceau whose life is so valuable to his country. The queen and all Spain share my sincere feelings of friendship and sympathy for the noble French nation."

The radiograph is perfectly clear, marking the exact spot of projectile near the lung in a position which leaves without the presence of a foreign body. Therefore it is unlikely that the extraction of the bullet will be attempted at the present time. Similar words were very frequent during the war and numerous recoveries were recorded. Therefore it is hoped that unless complications arise a few days will see the patient restored.

LAURIER'S PASSING SUBDUES OPENING

(Continued from page 1.)

ence of the brief opening sitting. After the house adjourned the chamber was cleared of chairs and desks, the blinds were drawn, and the hundreds of floral tributes to Sir Wilfrid were brought in and banked in great circles round the place reserved for the bier in the central part, between opposition and government sides, and opposite the speaker's chair.

At 6 o'clock the hearse bearing the mortal remains arrived at the front entrance of the building. The bronze casket was borne to its resting place, where it will remain until Saturday morning at 10 o'clock.

Made Last Journey. With the relatives and immediate family friends who drove behind the hearse from Sir Wilfrid's late residence to the parliament buildings was Lady Laurier. She did not enter the buildings with the others, but remained outside with her physician in her carriage. She had made the last journey with her son over the long frequented route from home to parliament. "I always used to drive down with him," she is reported to have said. "I will do it this time as well as the last time."

The casket was borne with her own floral offering, to be placed on the casket.

Shortly after the bier had been placed in position, his excellency the governor-general, with the Duchess of Devonshire and his aides, followed by the members of the cabinet, the honorary pallbearers and the members of parliament, filed into the chamber for a last look at the departed chief. His excellency carried with him and placed upon the bier a great wreath of red roses on behalf of their majesties the King and Queen.

Thousands in Line. At eight o'clock this evening, when the building was opened to the public, there was a line of some thousands of people waiting for blocks up Metcalfe street, awaiting the opportunity to enter the building and pass in sad procession thru the chamber of Sir Wilfrid's final gaze upon the recumbent figure at rest.

Six Dominion police stood guard three on each side of the casket. During the evening, several thousands passed in quiet and reverent procession.

All day yesterday, at the late residences on Laurier avenue, there had been a similar constant stream of citizens in all walks of life, the total number who passed in and out during the day being estimated at over fifteen thousand.

The Religious Services. Mr. Petro D. M. Maria, papal delegate to Canada, will be the celebrant of a solemn pontifical high mass at 11 o'clock Saturday morning at the religious services at the funeral of Sir Wilfrid Laurier. A representative of Assumption College, alma mater of Sir Wilfrid, will be sub-deacon of the mass.

Blessing of the body at church door: Rev. Father Laflamme, parish priest of Sacred Heart Church, assistant priest: J. O. Boulter, vicar general. Deacons of honor: Canon L. N. Campeau, parish priest of the Basilica; Canon J. A. Plante, Dean of the mass; Rev. J. A. Myrand, parish priest of St. Anne's Church of the Basilica under direction of Mr. J. F. Champagne, organist; Mr. Amodeo, Trombone; Peroni's mass.

Blessing of the tomb at Notre-Dame Cemetery, Rev. Father Lajeune, O.M.E.

Montreal, Feb. 20.—At ten o'clock on Saturday morning, the hour set for the funeral of the late Sir Wilfrid Laurier, every train on the Grand Trunk and Canadian Pacific railways will be stopped for one minute.

Winnipeg, Man., Feb. 20.—Out of respect to the memory of the late Sir Wilfrid Laurier, the council of the grain exchange decided at a meeting held last night that the exchange will be closed for the day.

During a discussion of the seed of oats, Jas. Robertson, managing director of the Co-operative Elevator Company, said that the trust had tried to get his company to stand in with other firms in issuing two price lists, one for sale and one for seed. Saskatchewan. The company had refused and had not made a dollar on its oat business.

Two women being given the right to be nominated and elected to a seat in the house of commons was the gist of a resolution passed by the women's convention of the Saskatchewan Grain Growers' Association today.

GRANGERS FAVOR WIDE PROHIBITION

Only One Dissenting Vote on Resolution for Federal Law.

FARMERS' PLATFORM READY IN FEW DAYS

Is Approved by Grain Growers at Regina Convention.

Regina, Sask., Feb. 20.—Approval was given to the farmers' platform as revised November during the afternoon, and a resolution declaring that the manufacture, importation and sale of liquor be prohibited by federal legislation, was carried with one dissenting vote.

J. A. Maharg was re-elected president for the eighth term without a contest, amid great applause, and A. G. Hawkes re-elected vice-president. He polled over half the votes cast, defeating Tom Sales and R. M. Johnston.

Mr. Teare, William Thompson, H. C. Fleming, J. C. A. Dunning, also nominated, withdrew.

Discussing the farmers' platform a delegate urged that the tariff against United States goods be reduced gradually until it stood at ten per cent, to give some protection to the Canadian manufacturer, but the speaker failed to find a second.

Discuss Reciprocity. Another delegate wanted restricted reciprocity with the United States, and Mr. Maharg pointed out that this would automatically mean free trade with Great Britain in the light of their clause in the platform. Objection was taken that the proposal would be opposed by labor or the manufacturers would make conditions uncomfortable for their employees. On the advice of Hon. George Langley, a member of the council of agriculture, the matter was dropped.

It was decided that the platform be adopted as it stood, but that it be amended to cover everything, but surely was of a nature which could be supported for what it did stand for.

James Somerville of Moose Jaw, president of the Saskatchewan Labor party, spoke, saying the labor party had been traveling in a circle and at last realized this. Labor was becoming impatient, and unless it could secure the assistance of the producers it would use methods which might not be advantageous to all concerned. Constitutional means had failed to secure the desired reforms.

What Labor Wanted. The farmers' platform did not go far enough, he said, to secure support of labor. The people of the old country under low tariff were no better off than the people here under high protection. Labor wanted the abolition of the tariff, and the farmers were to be nationalized. Amendments to the constitution which would provide for an amount to be remitted to central by local for each member being a dollar instead of 50 cents, locals to levy such a rate as they saw fit.

Other amendments provided for three women nominated by two men's section being on the directorate of the association, and for a resolution by the convention, and that when \$200,000 is subscribed in debenture stock of the trading department of the association the trading department shall be closed.

No Religious Discussions. That religious discussions were tabooed at the convention of the grain growers was demonstrated for the first time when a delegate tried to precipitate one, but was hooted off the platform before he was heard.

During a discussion of the seed of oats, Jas. Robertson, managing director of the Co-operative Elevator Company, said that the trust had tried to get his company to stand in with other firms in issuing two price lists, one for sale and one for seed. NEW ARMISTICE WILL BE FINAL

Naval and Military Terms Will Be Incorporated in the Peace Treaty.

READY IN FEW DAYS

Final Decision Will Not Be Reached Till Lloyd George Returns to Paris.

Cable From John W. Dufas. Paris, Feb. 20.—The prediction, which has gone out from here to the press of the other side of the Atlantic that the Germans will probably be summoned to Versailles in, perhaps, six weeks, to sign the peace terms, is based upon a misapprehension of the policy which is being pursued by the great powers.

What Germany will be called upon to sign at Treves before the middle of next month, will be the conditions of a new armistice, the military and naval terms of which will be final. When Germany signs these, she will be bound to accept the terms of the new armistice, the military and naval terms of which will be final.
