o Filipinos Are Tenacious.

The tenacity of the Filipinos in the past few days' fighting has somewhat surprised the war officials here, who did not think them capable of putting up and maintaining the contest they have.

Word is hourly expected at the War Department of the arrival of the transport Sheridan at Manila with 1900 reinforcements for Gen. Otis. This will be a formidable addition to his fighting strength. Six regiments of infantry and artillery, comprising approximately 8000 men, one regiment of which sailed from San Francisco yesterday, are under orders for Manila. Their movement will be pushed as rapidly as possible with a view to the reinforcement of General Otis at the earliest inforcement of General Otis at the earliest insurgent headquarters at Malolos, now stated to be but 15 miles from the vanguard of the American army.

The soldiers were much exhausted, and there were several prostrations from the heat, which was intense. The dead and wounded were collected in the shade of the trees and carried on stretchers by Chinese across the river to the train. After lunch Gen, MacArthur's division advanced toward Polo. The 2nd Oregon Regiment encountered a thousand Filipinos west of Malinta, who were retreating from Malabon. The enemy had taken up a position behind four rows of entrenchments, but were driven out after an hour's heavy firing. One Oregonian was killed and five were wounded. The 3rd Artillery, acting as infantry, with two guns of the Utah Artillery, and the Kansas, had a sharp fight east of Malinta. The Americans had but slight loss. Five Filipinos were found dead and several were taken prisoners.

The Philippine Insurgents Will Probably Make Their Last Stand at Malotos.

Manila, March 27 .- (9.10 a.m.)-The Fillpinos are burning their stronghold at Malabon, and their forces are fleeing from the city in the direction of Malotos. Gen. Mc-Arthur's division is pushing towards Mala-bon. The insurgents will probably make their last stand at Malotos.

His Career. was a mere skirmlash to the conflict going on here.

Ladwig Karl Loewenstein Wertheim in yesterday's fighting in the Philippines ends a career which of late had seemed mysterious and given rise to no little speculation. According to a despatch from London to the Associated Press on March 4, the Prince, who married Lady Anne Saville, a daughter of the Earl of Medborough, had been lost sight of by his friends, and an advertisement enquiring as to his whereabouts had appeared in the London news in the Philippines, had been here for many months, was present at the destruction of the Montejos fleet and was a member of the European Club. The despatch asserted also that his behaviour had given rise to a suspicion that he was acting as the confidential agent of the German Government. It was that his behaviour had given rise to a suspicion that he was acting as the confidential agent of the German Government. It was the first own capacity of the German Government. Manila, March 26.—The fighting of yesterday and to-day furnished a specimen of the difficulties with which the Americans have to contend. The Filipinos never, except opposite Malabon, permitted their opponents to get within several hundred yards of them. They would fire a few volleys from their cover and then scuttle back to another cover, repeating these tactics for miles. Many of the trenches had guilles and connecting paths through the cane and brush, enabling them to retreat unseen. The problem the Americans have to face is to drive or lure the insurgents to fight in force. 'The trenches seem to get with the first load were 42 men, more or less seriously hurt. The Enemy Demoralized.

The enemy, apparently demoralized after the difficulties with which the Americans have to contend. The Filipinos never, except opposite Malabon, permitted their opponents to get within several hundred yards of them. They would fire a few volleys from their cover and then scuttle back to another cover, repeating these tactics for miles. Many of the trenches had gullies and connecting paths through the cane and brush, enabling them to retreat unseen. The problem the Americans have to face is to drive or lure the insurgents to fight in force. The trenches seem thinly manned, except in the vicinity of Malabon. The Americans, fighting a hidden foe, suffered greater loss in proportion than did the enemy. The loss of the Filipinos had formerly been estimated from the number of bodies found scattered in the swamp and through the brush. A larger percentage of the enemy's wounded died than of the Americans, many of them perishing from neglect, the Americans naturally attending their own men first.

The wounded, after treatment in the field hospitals, were brought to the Manila hospital by train. Several trips were made from Caloocan to the city.

Madrid, March 26.—Spanish officers acquainted with the Philippine Islands, not withstanding the American successes, continue to predict the failure of Major-General Otis' campaign. They say that, while the Americans will undoubtedly win all the battles, they will lose the campaign itself, owing to the aptitude of the Tagalos to conduct a war of surprises and ambuscades.

Malotos, the capital of the rebel government, they add, will fall into the hands of the Americans, but the Spaniards insist that the war will rage as long as the rebels desire it.

Upon this occasion, the rebels adopted the American tactics of holding their fire until the attackers were about 1000 yards distant. The rebels also fired lower than usual, but the Americans fired volleys with terrible effect, and then rushed forward, cheering and carrying everything before them. Have Put Up. Washington, March 26.—Gen. Otis' de-Unce through, General McArthur's divispatch, received at 10 o'clock to-night recording MacArthur's advance to New Canayan, marked a distinct and important step by the American troops, in the opinion of Acting Secretary Melkiejohn and Adjutant-General Corbin. Both expressed their satisfaction at what had been accomplished. The former despatches had not been so promising, inasmuch as they had stated that Gen. MacArthur, although he had driven the enemy, could not gain a point north of Polo on account of the roughness of the country. With easy railroad communication to the advanced point, the difficulty in forwarding commissary supplies will be considerably lessened.

## Spring Weather Weakness

Try as you may, you cannot escape the weary, worn out, don't-care-to-work feeling that accompanies spring weather. Trouble is, the system is so loaded with impurities that every organ of the body is impaired.

Montreal, March 25 .- (Special)-Major General Hutton had a conference at the Windsor Hotel this morning with the various commanding officers of the city, at which the arrangements for the field day on May 24 next were completed. It has been decided that the event shall take the form of a sham battle and a review, and it is proposed to ask the co-operation of one or more outside corps. The review will take place on Logan's Farm, and it is probable that the sham battle, will also be held in that district, as it has been found difficult to secure the necessary ground elsewhere. The battle will take place on the morning of the 24th and the review in the afternoon. His Excellency the Governor-General, Lord Seymour and Major-General Hutton will act as umplres in the sham-battle, and will afterwards inspect the troops in review. B. B. MAGNATES WARM UP. National League's Lively Session-

St. Louis Expelled and Schedule Adopted. New York, March 26 .- After a brief but stormy and highly sensational meeting the

Five or six hands delved into inside pockets, and the Quaker turned pale as a ghost.

"Mr. President, this man is the worst sandbagger and blackmailer I ever saw," yelled Frank Robison.

"Is such language as that permissible here?" asked Rogers meekly.

"No matter whether it is or not, it goes," retorted Robison.

"You beat Freedman!" exclaimed Hart.

"Mr. Robison," said Col. Rogers very quietly, "I will vote for the expulsion of the present St. Louis club if you will settle with me in Philadelphia at 25 cents per ticket, I to do the same to you in St. Louis."

"That's a go," answered Robison. Jobbing is the only way out."

A vote was taken, the Sportsman's Park, and club were thrown out and Robison and club were thrown out and Robison and F. A. Abell. The one to Muckenfuss is the most startling.

The schedule calls for four trips. The regular season opens April 15 and closes Oct. 14. Upon the request of the Robisons, however, a resolution was adopted allowing the clubs that wish to open the champion ship season on April 14 and close on Oct. 15 to do so.

It took nearly six hours to fix up the schedule. At the beginning of the session President Young offered a schedule propared by him. Several of the clubs wanted dates in this changed, particularly the Eastern clubs. Chicago and Louisville asked for the greater number of changes, and they got all they asked for.

The champion Bostons will open the season with the newly organized Brookly team. New York opens with Baltimore, a Baltimore, washington at Philadelphia, Pittsburg at Cincinnati, Chicago at Louisville and Cleveland at St. Louis.

Close of the Forty Hours. The forty hours of devotion celebrated in all of the Roman Catholic Churches since Thursday morning were concluded yest day by special services. At the morning services high mass was celebrated in all of the churches and palms were distributed to each person present. The priests followed by the sanctuary boys and acolytes, carried the palms around the church and supplied the congregation. Special services will be held next Friday at 9 a.m., 3 p.m. and 7.30 p.m.
