EDUCATION IN ENGLISH.  
The fear is growing ground that in  
these days of technical knowledge and  
practical training, the basis of all edu-  
cation is being neglected. The technical  
schools and colleges of science are year  
by year turning out thousands of young  
men whose ambition is to engage in en-  
gineering and industrial undertakings  
of all classes. In order to prepare stu-  
dents to enter upon successful careers in  
the various departments of engineering,  
these technical schools have arranged  
their curricula with reference to teach-  
ing the largest amount of science and  
engineering that can be compressed into  
the time at the student's disposal. The  
schools have found it necessary to omit  
from their courses many studies which  
were formerly regarded as essential to a  
liberal education. Chief among these are  
the languages and English composition.

A knowledge of the modern languages  
is no doubt necessary to a highly suc-  
cessful career in many departments of  
science; and, in any event, it is clear  
that a liberal knowledge of English is  
absolutely essential to the engineer or  
scientist who hopes to ever make any  
great headway in his profession. An  
engineer may possess ever so much  
practical knowledge, but what good  
will it be to him if he cannot write a  
presentable report or put his ideas into  
clear, concise English?

The technical journals on the other  
side of the line have awakened to the  
seriousness of the situation, and The  
Electrical Review raises its voice thus:  
"The value of an engineering report  
does not depend so much upon the erudition  
and the familiarity with the subject  
exhibited by the engineer making it,  
as it does upon his ability to make  
clear and explicit his reasons, to show  
logically the origin of his deductions,  
and to impress upon others his conclu-  
sions. It is precisely this art which has  
been neglected. Facility in the use of  
language is a tool in the hands of a  
competent man with which he can ac-  
complish much. Men knowledges with-  
out this facility, is practically useless."  
The lack of instruction in English is  
no doubt more marked in the United  
States than it is in Canada, but we re-  
quire, nevertheless, to pay attention to  
the warning. It is evident to the ob-  
server that in the eager rush after what  
is called "practical knowledge," the de-  
ficiency referred to has been allowed to  
extend more or less through the whole  
educational system on this continent.  
We have young men leaving school and  
college crum full of special knowledge,  
but yet unable to appreciate their  
mother tongue, or to write a coherent  
letter.

There is a good deal to be said after  
all in support of the old system of im-  
parting knowledge. In the old time  
Public schools, spelling matches train-  
ed the young idea in the mysteries of  
orthography and the study of "Latin  
roots" laid the foundation for an ap-  
preciative understanding of our own  
language. And in the old time grammar  
schools and colleges the principle fol-  
lowed in the primary schools was car-  
ried out in order to give every student  
first of all a "liberal education."  
Nowadays, except in the university  
arts courses, everything is sacrificed to  
the special training of pupils for practical  
life.

### A VENERABLE OLD PARTY DISTURBED.

The London Times is in a state of  
panic these days over the spread of  
socialism. Municipal ownership it  
holds to be a fraud. Bryanism in the  
United States is a public danger. The  
efforts of the people to hold their own  
against the trusts is rank communism.  
In short, according to The Times,  
there are no urgent social and econ-  
omic problems pressing for settlement.  
The condition of affairs to-day in the  
world is the best possible.

The Times is making a determined  
stand in behalf of the things of the  
nineteenth century as against the  
things of the new century. The Times  
speaks for wealth, for capital,  
for aristocracy, for exclusiveness,  
for tradition, for the few. But  
there are others who are speaking for  
humanity, for progress, for the many,  
for a righting of existing wrongs, and  
who seek to improve the lot of all.  
Forty per cent. of the people in Eng-  
land are insufficiently fed, judged by  
a very low standard of living. And  
the same thing obtains in many other  
countries. Improvidence has much to  
do with this; but so also have bad econ-  
omic conditions, and it is to improve  
these conditions that the new move-  
ment is taking way. And it is this  
new movement that gives The Times  
its fearsomeness.

### AID THE PRISONERS' AID.

The Prisoners' Aid Association, as  
their name signifies, are working for  
laudable ends, and the city council  
will be justified in rendering the or-  
ganization every service in their  
power.  
The association's recommendation  
that the jail be so equipped as to fa-  
cilitate the segregation of first offenders  
is worthy of full support from the city  
fathers. Under present conditions,  
which necessitate the commingling of  
those young in sin with the most hard-  
ened criminals, the jail is, as has been  
claimed, a school of crime. And the  
municipal authorities must do more  
than endorse the plans of the associa-  
tion in this respect. They must see  
that the jail is forthwith fitted out  
with the new separate cell system  
asked for.

The Council will likewise have the  
support of the public in voting the as-

## T. EATON CO. LIMITED

### Important Money-Savings for Men.

Eight or nine items representing values that can hardly fail to make a favorable impression on the wideawake man who wishes to make every dollar count big when buying Clothing or Dress Needs. These are seasonable needs, dependable qualities and correct styles. ## T. EATON CO. LIMITED

190 YONGE ST., TORONTO.

**THE TORONTO DAILY STAR WILL HAVE A MORE COMPLETE LIST**

**YORK FARMER'S FATAL FALL.**  
William Webster Succumbed to His Injuries.  
William Webster, a well-known farmer of York County, and father of Policeman Webster of No. 4 Division, died on Wednesday at his home, 111 Lansdowne, on Friday last. Mr. Webster was working in the loft of his barn, when he accidentally fell down the hatchway. He sustained severe injuries to his head and shoulders, and was unable to rise. He was carried to the hospital, where he remained for several days, but he died on Friday. The funeral will take place at 1:30 to-day at Mount Pleasant Cemetery.

**Prevent Disorder.**—At the first symptoms of intestinal disorder, Parley's Vegetable Pills should be resorted to immediately. Two or three of these pills, taken before going to bed, followed by a glass of water, will serve as a preventive of attacks of dyspepsia, and all the discomforts which follow in the train of that fell disorder. The means are simple when the way is known.

**Ladrones Make Trouble.**  
Machinists, Nov. 6.—The Ladrones are causing more trouble than ever by dressing as constables and preying on defenceless natives.

**Must See Britain.**  
Calcutta, Nov. 6.—The Ladrones have been told by the Ammiral to see Britain's closer commercial relations with Afghanistan are desired.

**DON'T NUMBER FOUR**  
DON'T buy a great bar of soap under the impression that you are getting big value for your money. A large bar of soap is not the soap you have to depend upon to remove dirt, and so on. It is the soap you have to get soap and not soap and water.

**HUDSON'S DRY SOAP IS ALL soap and no water.** You add the water yourself, just as you require it. HUDSON'S doesn't require handling, and is simple to see how it reaches and removes dirt better than common soap. Isn't it?

**TRY ONE PACKET AND SEE.**

**A Paucity Exposed.**  
It has been said that "the evil which men do lives after them," but the good they die with them." In one sense this is true, for the sins of one person affect many and leave their traces in the world for many years. But it cannot always be said that the good that men do dies with them, for the man who at his death holds a policy in the Life Assurance Company of Canada, whose head office is in Toronto, leaves behind him at least one testimonial which will redound to his credit for the years to come.

## Extra Saturday Values

- The Belle**  
The prettiest little stove of the kind on the market, just the stove for an office, bedroom, or narrow hallway. It occupies very little space, is a splendid heater, is easy on fuel, will hold fire over night, and the price is only ..... **\$6.75.**
