Williams, who new resides at 60 Mutual St., Toronto, was intended for the Ministry, and to this end studied Theology at King's College, London Eng. He says: "Whilst there I began to suffer from Eczema, This was 25 years ago, and I concluded I was doomed to suffer for life. A few weeks ago I was called to Hamilton on business, and had not been there two days when I was forced to lay up, the pain in my legs was so severe. My wife examined the parts that were so painful, and discovered a patch of badly discolored skin. She did all she could think of to relieve me, but failed. We obtained advice, and it was found I was suffering from Blood Poison, and that I was in danger of losing my legs, if not my life. At this point I decided to try Zam-Buk which I had seen advertised. The first application gave me great relief, and the poisonous matter, which came from the wounds convinced me that I was on the right track. I therefore persevered with this healing balm. The first two hoxes had cleaned the sores and my legs looked as though they were full of holes. From this time on the healing work commenced, and I am thankful to say that after using 4 boxes of Zam-Buk all the wounds were healed and my legs cleared of the horrible Eczema that had affected me for 25 years."
