

COBALT---La Rose and Temiskaming Are Strong in Dull Markets---COBALT

NEGRO ARRESTED HERE IS WANTED FOR MURDER

Photo of William Long, Charged With Attacking Policeman, Identified in Chicago.

William Long, the negro who was taken by Detective Mitchell after a savage fight, when the officer took a revolver away from the man in a west Queen-street store last week, is being held on a charge of wounding that officer. He is wanted in Milton, Ont., for shopbreaking on the day before he was arrested here and for stealing from a Milton hardware dealer the four revolvers which he had when arrested here.

But this is not all. His photograph has been identified in an American city as that of William Hightower, a negro wanted in Chicago for murder. No particulars of this crime are had here, but the identification seems to be positive. Not only does the photo, but also the description of Long, agree in every particular with that of Hightower.

Cobalts in Traders' Hands And Price Changes Are Small

LaRose Continues Its Gradual Upward Trend—Temiskaming Is Also a Strong Stock—Others Steady.

Monday Morning Office. The mining exchanges to-day continued to be on the active side, but with the bulk of transactions coming from floor traders. The Cobalt stocks opened the week with a rather firm undertone, but bullish sentiment weakened during the session, and price changes were few and mostly unimportant.

With the exception of the continued strength of La Rose, the markets were practically featureless. This issue opened steady at \$7.98 and sold up to \$8.15 on the morning board for a small block of the shares. The highest price yet reached by this issue on any exchange.

Temiskaming was the centre of interest this morning, with sales as high as \$1. A large short interest is known to exist in this stock and the covering of this is expected to put the price considerably higher. The stock closed strong at \$6, an advance of 2 points over Saturday.

Beaver was in fair demand around 92 and closed firm at that point. Otis was steady at 40 1/4, the high price reached last week on reports of more successful development of the company's property. The other issues remained about unchanged.

One shipment from the camp last week were considerably above the average, being 714 tons from ten mines, against 608 tons the preceding week. Nipissing had the largest output for the week, the output from this mine being nearly twice that of any of the others, and making the Nipissing a total for the present year greater than that of any other property in the camp.

The market closed on the weak side. The coming of the Ontario Railway and Municipal Board, asking that the board determine an agreement between the town and the Windsor, Sandwich and Amherstburg Railway Co., regarding the running of cars on certain streets, judgment was given yesterday that the right of the company to use the streets of the town expired on Dec. 15, 1912. The case now stands over to permit a reference to the court of appeal. If it is decided on this point.

Complaints were made that the company was not giving a proper service, but the board decided that the rights of the company to operate should first be determined.

A bylaw was originally passed by the town giving the railway the right to use certain streets, but a fire in 1912 destroyed all copies of it. Later a statute of the legislature said that no municipality could give a franchise for more than 20 years, but the company claimed it had a perpetual franchise.

Under the circumstances the board has given judgment on the duration of the franchise, and has adjourned the case until the point is definitely settled.

Another judgment rendered yesterday reduced the assessment of the Bruce Mines Co. to \$38,000. This judgment settles a dispute between the town and the Bruce Mines and the company. The board found that a certain portion of the company's property did not consist of mining lands, hence the reduction.

Editorial World: Do you consider it legal and proper that the directors of our company should take into account the present and future value of the property to give them half the profits of the mining operations on our property? The directors of the company are now considering the possibility of the advancing of some \$25,000, or a lease extending over a period of five years?

Reading the annual report of the company, I see they had no money on hand to continue operations for about a year and a half. So suggest the directors action in this regard. The property was at least premature.

Why give away large amounts of money in profits until it is absolutely necessary to refund? As shareholders we appear to have no voice in this matter. We are being run by a few men who are running things to suit themselves and their friends.

Are their friends the New York bankers? The price of our stock has been manipulated to a very low figure, and if the New York crowd can't buy in, they'll get away with half the profits anyway. If we don't get busy and get in our own property, we'll be left with nothing but a few shares of stock.

Fellow shareholders, protest against this sacrifice of our interests. Use your vote at the next meeting. We will not let you later for proxies if unable to appear yourselves. A Kicker.

Peterboro, June 19.

Claims Are Being Concentrated. ELK LAKE, June 28.—(From the Man Up There.) A Toronto man who came in from Shilling Tree district the other day expressed himself as being well pleased with that section. He says that the Shilling Tree district is equal to any found in the country, and that the veins are of a fair width, ranging from one inch to two feet, and that they are highly mineralized, containing Cobalt, smallite and copper. Up to the present very little silver has been found at Shilling Tree, but the indications are exceptionally good.

According to the Toronto man, large bunches of claims are being bought up cheap by United States people who have constituted themselves exploration and development companies.

New York Curb. Charles Head & Co. report the following prices from New York: Nipissing closed at 10 1/4 to 10 1/2, high 10 1/2, low 10 1/4; Beaver, 92 1/2 to 93 1/2, high 93 1/2, low 92 1/2; Otis, 40 1/4 to 40 1/2, high 40 1/2, low 40 1/4; La Rose, 8 1/4 to 8 1/2, high 8 1/2, low 8 1/4; Temiskaming, 6 1/4 to 6 1/2, high 6 1/2, low 6 1/4; Crown Reserve, 4 1/4 to 4 1/2, high 4 1/2, low 4 1/4; Green-Meehan, 3 1/4 to 3 1/2, high 3 1/2, low 3 1/4; McKimley, 2 1/4 to 2 1/2, high 2 1/2, low 2 1/4; La Rose, 8 1/4 to 8 1/2, high 8 1/2, low 8 1/4; Temiskaming, 6 1/4 to 6 1/2, high 6 1/2, low 6 1/4; Crown Reserve, 4 1/4 to 4 1/2, high 4 1/2, low 4 1/4; Green-Meehan, 3 1/4 to 3 1/2, high 3 1/2, low 3 1/4; McKimley, 2 1/4 to 2 1/2, high 2 1/2, low 2 1/4; La Rose, 8 1/4 to 8 1/2, high 8 1/2, low 8 1/4; Temiskaming, 6 1/4 to 6 1/2, high 6 1/2, low 6 1/4;
