## BERNSTORFF KNEW OF UNRESTRICTED WARFARE PLANS

Scheming Count Had Foreknowledge of Policy When He Asked to Expend \$50,000 to Influence Congress.

Washington, Sept. 26.—Further evidence that Count Von Bernstorff, former German ambassador to Washington, knew of his government's intention to inaugurate a campaign of unrestricted submarine warfare prior to his request for money with which to influence congress, is in the possession of the state department. Secretary Lansing said today that as early as January 19, Count Von

Bernstorff knew of the plan. Answering inquiries, the secretary made this statement:

"In view of inquiries which have been made as to whether Count Bernstorff knew of the intention of his government to renew relentless submarine warfare when he sent his message of Jan. 22, 1917, asking authorization to expend \$50,000, I can state that the department of state possesses conclusive evidence that on or before January 19, Count Von Bernstorff had received and read the Zimmermann telegram to Minister Von Eckhardt in Mexico, which contained the following: 'We intend to begin on the first of February unrestricted submarine warfare. We shall endeavor in spite of this to keep the United States of America neutral.' Count Von Bernstorff was, therefore, fully advised of the intentions of the imperial government at the time when he asked for authority of Berlin to employ funds for an organization to influence congressional action in favor of the continued neutrality of this country."

FOR THE PEOPLE'S BENEFIT.  
At the Moncton city council on Monday discussion took place concerning the potatoes stored by the city in the trotting park. It was decided that the potatoes be sold at a price of 10 cents per bushel.

THE old adage still holds good—"Prevention is better than cure"—and those who would retain the healthy sound teeth that nature gave them, can only do so by keeping the mouth and teeth clean.

The regular use of Mennen's, not only thoroughly cleans and leaves the mouth fresh and wholesome, but by its gentle antiseptic action, checks the growth of decay germs. To preserve the teeth use—

## SAYS WOMEN WHO HAVE TUBERCULOSIS SHOULD NOT MARRY

Annual Meeting of Canadian Society for Prevention of Tuberculosis—Hon. J. W. Daniel Presides.

Ottawa, Sept. 26.—Several highly valuable papers by experts in the prevention and cure of tuberculosis were delivered at the opening session of the annual convention of the Canadian Society for the Prevention of Tuberculosis in the Normal school hall this morning. The convention was presided over by Hon. J. W. Daniel, president of St. John (N. B.), and an optimistic report of the past year's work of the society was presented by George Porter, M. D., secretary.

D. A. Stewart, M. D., in a paper on tuberculosis and maternity, said that 63,000 children were born every year in Ontario, one per cent of the mothers of whom were tubercular. In the dominion the number of cases of tubercular mothers giving birth to children each year was 2,400.

St. James Grant, of Ottawa, and Dr. Adam Wright, of Toronto, discussed the points brought up by Dr. Stewart in his paper, the latter declaring that a woman with tuberculosis had no right to marry.

Care of Children.  
The work of philanthropic citizens in the district of Quebec in combating the disease were described by O. LeClerc, M. D., of Quebec city, who informed the delegates that a new sanatorium would be opened at St. Foyment.

F. S. Minnes, M. D., of Toronto, discussing school work in tuberculosis, was emphatic in urging a rigid medical inspection of all school children by competent medical officers. The value of the forest and open air schools conducted in Toronto for tubercular and diseased children refused admission to the public schools was emphasized by F. A. Hutchison, of Westmount. Speaking on organization in a city, Captain Hill, M. D., of London, referred to the splendid work of Dr. D. A. Craig, medical officer of health in that city, who, he said, was responsible for the successful fight against tuberculosis being waged there. Captain Hill said that Dr. Craig had been urging the appointment of a military medical officer in each district to supervise discharged tubercular soldiers.

The secretary's report contained a plea for government aid in the fight against tuberculosis.

## SEES MENACE OF PAN-GERMANISM

Strong Party in Reichstag Likely to Denounce Extremist Policy.

Berlin, Tuesday, Sept. 25.—The pan-German activities which have been launched on a big national scale, are expected to find an echo in the plenary sessions of the Reichstag. The central governing board of the social democratic party has issued a plain spoken call, summoning the opponents of the reactionaries to join the action. The declaration proceeds to establish the identity of the various disguises adopted by

the pan-German agencies. It asserts the combination is made up of industrialists and the landed interests, whose war aims reach the pinnacle for annexations, indemnities and the granting of such a separate peace to each enemy as the conditions warrant.

The call concludes with the declaration that the realization of the pan-German programme would mean the suicide of European culture civilization, for after such a collapse, it is pointed out, the reconstruction of Europe could not be accomplished for a century. The activities of the Fatherland party are also likely to be discussed in the open sessions of the Reichstag.

NO ARRANGEMENTS YET  
No arrangements have been made for hauling of the coal ordered for the city schools. No tenders were received in answer to an advertisement and the buildings committee of the board is faced with the problem arising from the expected arrival of a large quantity of coal which no one seems to want to haul to its destinations.
