BIG TREES YET IN ST. JOHN COUNTY

Winter Cut Will Run Over 10,000,000 Feet—Sixteen Inch Deals.

If the average person were asked if there was any lumber left in St. John county the reply would probably be that pulpwood and small stuff for the saws was all that was found. This answer would be wrong, as there is one operation at Black River where trees are being cut that give four logs and one mill cut a sixteen inch deal, which is almost as good as ever was cut from spruce in the province. The cut this year in St. John county will run over 10,000,000 feet of lumber, and is furnishing employment to a large number of men.

In the Black River operation the total cut will run to about 6,000,000 of which about 4,000,000 will be sawed into lumber this winter and the remaining 2,000,000 sawed next summer. At the present time two mills are operating there with three mill crews, one of the mills being operated on a twenty hour schedule, with day and night crews. Over 250 men are employed altogether here. Logs not being sawed are being piled on the banks of Emerson Creek and will be driven in the spring to the Bay Shore and sawed there.

The lumber which is being sawed is brought to the city in scows and loaded on cars for shipment to the American market, where there is a good demand at present and the price is fairly good. The scow of lumber which was being towed by the G. K. King when she sank off Black Point was from this operation.

Another large operation in this county is that of the Pelopscot Lumber Co., who are getting out 20,000 cords of pulp wood and about 5,000,000 feet of lumber.

St. John business men will appear before the Board of Railway Commissioners in session here tomorrow and give their views on the matter of increases in the express rates in the Dominion. When this matter was first brought up a joint meeting of the Board of Trade and Retail Merchants' Association was held in the Board of Trade rooms and at that meeting a resolution was adopted calling on the Board of Railway Commissioners to appoint a royal commission to make a full investigation into the earnings of the express companies for the last ten years and an audit of their accounts by an independent firm to show that increases were needed before any order was passed allowing the rates asked for by the express companies.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "I read that one good brother has described the pulpit utterances of a nother good brother as the devil's own doctrine. What the devil do you make of it?" "You're swearin'," said Hiram. "Now, that's curious," said the reporter. "Why isn't the good brother swearing also?" "There's a difference betwixt devils," said Hiram. "Ah!" said the reporter. "You speak from knowledge?" "I never seen one," said Hiram. "Leastways the kind that hes horns an' a tail—but if I'm a mouthpiece fer one every time I don't agree with some other feller they must be as thick as fleas on a dog—yes, sir." "I wonder if they are," said the reporter. "I wonder," said Hiram. "I don't believe we can settle it off-hand," said the reporter. "No," said Hiram. "I guess we better go on sawin' wood an' let the other fellers look after the brimstone—By Hen!"
