NEN BRUNSWICK FARMS for sale - Offering great opportunities for apple culture, sheep, dairy, and mixed farming. Nowhere else in Canada, except in twenty-four hours' ride of Boston, a city which would afford a splendid market for your hay, lumber, potatoes, hams, etc. With reciprocity between the two countries the farmers will know that they can raise any amount of produce, for which they can always find a ready market. Your local market is very limited, said Mr. Chappell, everyone knows that and that is one reason why the farmers do not put forth greater effort to produce more. There is no use to raise farm products unless they can be converted into money. Under reciprocity more money would go into the farmer's pocket, and since the farmer is the backbone of the country, the city man who really produces his prosperity would mean the prosperity of the whole country.

Does the United States want to annex Canada? asked the Tribune. Assuredly not, said Mr. Chappell, the cry is absolutely untrue and in no country in the world is there a more ardent desire to see the United States and Canada united than in the United States. There is always a chance to sell a good article, said Mr. Chappell. It is the poor stuff that is a drag on the market. Maritime province lamb will bring more by two or three cents a pound, than other lamb. This is because it is choice and people want the best.

Altogether the proposed agreement would undoubtedly be a great blessing to both countries that has ever come to them. All that is required, said the speaker, is for the people to be thoroughly informed on the question and the result will be that Sir Wilfrid Laurier will go back to power with the greatest majority he has ever had.
