GREEK SAILORS

DESPERATE FIGHT ON STEAMER ST. JOHN

Six Men Wounded-Mutineers Secure Small Boat and Make Their Escape.

(Times Leased Wire.)

New Orleans, Oct. 7 .- A mutiny ending in a battle aboard the coastwise steamer St. John, in which six men were wounded, was reported to the customs officials here to-day by Capt. Spiro Casovich. According to the captain, four Greeks attempted to take possession of the vessel and smuggle

half an hour before they were worsted.

Realizing the seriousness of their action and the probable outcome, if they ever were brought into court on a mutiny charge, the defeated Greeks leaved overheard swem to a great Melson then fired. leaped overboard, swam to a small

boat and escaped. The federal officers this afternoon Company, of this city. are conducting a search for the men. When the effects of the mutineers were searched, a map of Mexico and arms and ammunition were found. The federal officers believe that the Greeks intended to take the steamer to Mexico and smuggle a shipload of

Chinese into this country. ALLEGED CONSPIRATOR

PASSES COMMITTEE

Attention is Now Turned to Conference Between the King and Premier.

London, Oct. 7.-While the House of stage of the budget, the King, assisted by unofficial advesers, is actively intervening to prevent the orisis which the government's financial proposals "threaten to precipitate." The House has accomplish-ed its task, so far as consideration of the bill is concerned, the last clause passing in committee after a late sitting last night. The fight, so far as parliament is involved, is adjourned until November 19th, when the measure comes up for re-

ditions.

The president talked at length upon the merchant marine, and suggested the latter and Lord James Beresford, who

ed with the \$8,000,000 or \$10,000,000 this country makes yearly on foreign mail, should be tried and later, if proved satisfactory, further subsidies should be provided. After outlining his plan, he said: "Let's try it and see how it works out."

Regarding a pattleship fleet for the country makes years when the same of party strife. It is rather a delicate matter for the king to intervene in domestic affairs, and, as a matter of fact, this is the first time he has openly done so. He has precedents for this, however, Queen Victoria having intervened twice: on the Irish church bill in 1869, and on the Reform bill in 1869, and on the successful than that of his mother. Dur-ing his absence, Premier Asquith has been in touch by private wire with the mem-bers of his cabinet in London. The adjournment of the House, which

Chancellor Lloyd-George announced, will enable the leaders to consider the King's suggestions without discussion.
