that so many ailments which have apparently baffled the skill of celebrated physicians yield to the quiet influence of a simple home remedy like

HEALTH CONDITIONS CONSIDERABLY BETTER

Now that influenza has entirely disappeared the city's bill of health for this time of the year makes a good showing, according to the records of the city health department. During the month of April some 37 cases of influenza diseases were reported and these were principally the minor ailments, such as measles, mumps and chicken-pox.

This total is less than half the number reported in April, 1923, when 204 cases of contagious diseases were reported, measles during that month being responsible for 141 victims.

It is reported by the health department that there are comparatively few cases reported so far this month. There are a few cases of whooping cough and a little measles.

The contagious disease cases for last month and for the corresponding month of last year are distributed as follows:

Comparative Table

	April 1919	April 1924

G.W.V. SELECT DELEGATES TO NATIONAL MEETING

A strong discussion on the merits of the gratuity scheme featured the meeting of the Great War Veterans held recently when the election of delegates to the Dominion convention at Vancouver took place. Several of the nominees, before allowing their names to go before the meeting, placed their position fairly before the veterans, stating they did not wish to be sent to Vancouver with a hard and fast debate on the resolution of the Regina branch relative to the gratuity scheme.

While supporting the principle of gratuity, they wanted to be free to vote for any gratuity scheme which may have a chance of being passed by the meeting.

Supporters of the gratuity scheme made it plain they wanted the delegates to use all their persuasive powers at the convention to insure the principle of the scheme being adopted.

Following the addresses on the subject, the following delegates were elected by ballot: (Committee

Sturrock, Gibson, Bagshaw, Smith-Jones, Lewis and Tallis. The first four are the delegates, but in the event of one of these being unable to go the fifth or sixth man will be asked to make the trip.

F. W. TURNBULL ADDRESSED "THE PEOPLE'S FORUM" ON STATE AND INDIVIDUAL

"Canada has a real first class war on her hands right now," said F. W. Turnbull, in an address before the People's Forum and she will find that industrial war does not pay any more than military war, through which we have just passed. And war either military or industrial should be the very last resort."

In dealing with the subject, which was, "The Relation of the State to the Welfare of the Individual," in the latter part of his address the speaker had some hard things to say about the judicial system of this province, claiming that too much power was given J. P.'s and that the prison system failed miserably as the elimination of crime was concerned and entailed hardships on wives and children, and dependents. One man was recently given a year in jail for refusing to support his wife. He went to jail and was supported by the state while his wife was still without his support.

The speaker gave it as his opinion that strikes were not ideal methods of settling disputes and instanced the Pittsburgh coal strike where five per cent. raise was given to the workers and ten per cent. added to the price of coal.

Canada was deeply in debt at present and everything that disorganizes industry even for one day hinders from paying this debt," continued Mr. Turnbull. "There are hundreds of men idle in the city but there are two thousand

vacancies for farm workers, yet unfilled."

Mr. Turnbull traced the rise of society through various stages, from prehistoric times when the tribe was the family unit, up through feudal days until the invention of machinery created present day labor conditions—with their fierce competition, resulting in trade's unions on one side, and manufacturers' associations on the other—not competition of industry but competition of class.

DIZZINESS AND PAINS

"For three years, my wife suffered with dizziness and pains in her whole body," writes Mr. Adolf K. Polansky, of Lyons, Texas. "This spring she became very sick, and we commenced giving her of Forni's Alpenkräuter; after taking two bottles of this remedy, she felt well and strong; it has cured her entirely." Forni's Alpenkräuter will serve you well, no matter what your physical condition may be. This old, time-tried herb remedy contains only such ingredients as will do the system good. It is not a drug store medicine. Local agents supply it. For further particulars write to Dr. Peter Fahrney & Sons Co., 2501 Washington Blvd., Chicago, Ill. Delivered free of duty in Canada.

JACOB MAIER IS DROWNED WHILE BATHING IN SLOUGH

Jacob Maier was drowned Sunday afternoon on his father's farm near Kronau while bathing for the first time this year in a slough behind his home. At three o'clock he and his friend Nicholas Elman went from church to have a swim. Maier at once got beyond his depth and, being unable to swim, drowned. Elman attempted a rescue but, being unable to swim, did not succeed. The body was found shortly after, and Dr. Thompson, the coroner, went out. Upon investigation, he decided an inquest was unnecessary.

Mr. Maier was twenty years old and was the son of Jacob Maier, who homesteaded twenty-eight years ago on his farm in St. Mary's colony, two miles west of Kronau.

MANITOBA

WINNIPEG STRIKE SITUATION

Conditions are fast returning in the direction of normal. Telephone service is being resumed, bus deliveries are being resumed. Citizens not to hear Senator Robertson, minister of labor. Military postal clerks are to go in the post office. The railroad-running trades refused to go out on strike.

A careful observer characterized the situation further:

"There is a growing confidence on the part of the citizens of Winnipeg that they have the strike beaten, although it may be a few days yet until the final collapse comes. The citizens under Brig. Gen. Ketchen have a very strong organization and it is being extended every day."

The latest copy of "The Winnipeg Opinions," dated May 21, was brought to Regina recently. This sheet has been issued daily by the

CHEAPER WHISKEY PROMISED ONTARIO

TORONTO, May 24 — Cheaper whiskey is promised by the Ontario board of license commissioners and liquor will be sold at a flat rate throughout the province, so that the man who lives a long way from a government store will not have to pay any more than the man who lives in Toronto. All liquor is to be sold in sealed bottles. No liquor will be sold from any of the government stores that is more than 25 under proof. Instead of the 37 ounce "quart" the vendors have been selling, the board will sell a full imperial quart of forty ounces.

Authorities have assured citizens of adequate protection and advice everybody to go about their business as usual. The strike committee is no longer able to intimidate citizens, and prevent them from getting the necessities of life. Water pressure is again at normal.

At the request of the citizens committee yesterday at the city hall, the city council by a vote of seven to four ordered that water pressure be returned to normal. A. H. Heaps, Queen, Wigginton and Robinson, so-called labor representatives, voting against.

Permission to live cards are being removed from bread and milk delivery wagons. The wave of resentment of Winnipeggers to Bolshevik cards required on milk and bread wagons reading "Permitted by authority of the strike committee," has caused a temporary Soviet government at the labor temple to take off these yellow tickets.

The tyranny of the Soviet five in control at the labor temple deprives us of bread, milk, telephone, telegraphs, fire protection, street car service, mail and communication with the outside world. Is this your idea of freedom and democratic government?

The sympathetic strike, a dead issue ten years ago, cannot be shoved down the throats of Canadians. Our opinions may differ about other problems of the day but we stand united against the I.W.W., Bolsheviks, and Soviet government. The authorities have now taken adequate measures to enable you to go about your work or business in safety. Show your confidence by returning to work as usual.

"Fly your flag and let no one forget what it stands for."

"Let us settle the 'One Big Issue.'"

Is every individual dispute between employer and employee to continue to disrupt our daily life? As you walk to work by permission of the strike committee, just think this over."

RESIGNED AS PROTEST AGAINST MODERATE TERMS

PARIS, May 23 — Baron Denys Cochin, former minister of blockade, has resigned from the right group in the chamber of deputies, after a meeting of the group, at which it was decided to send a note to Premier Clemenceau, criticizing the peace treaty.

In a letter addressed to the Temps, Baron Denys Cochin considers that the treaty is too generous and unworthy of France and her allies. If it weighs heavily upon Germany, he said it is because Germany's crimes "were big," that her reparations will be enormous—which is justice."
