CROP OUTLOOK IS EXCELLENT

OTTAWA, June 24.—A bulletin covering the condition of the crops and the stock in all parts of the Dominion, reported by special correspondents of the Agriculture Department, under date of June 15th, was issued by the Census Bureau today. In general the report shows that despite the backwardness of spring, which retarded the early growth in practically all sections of the country, reports from all provinces are now very satisfactory, and except in some localities of the Maritime Provinces, where the rainfall has been light, there is promise of an excellent harvest.

Wheat, the great staple crop of the country, has a reported area of 7,760,000 acres, which is 1,440,000 acres more than last year. The area of oats in the Dominion is 9,202,800 acres, which is 1,361,500 acres more than last year. Barley, the cereal crop next in importance, has a total area of 1,864,600 acres, or 119,300 acres more than last year. At the end of June, 1908, there were 122,350 farms in the provinces of Manitoba, Saskatchewan and Alberta, and at the end of 1908 the homesteads entered less all cancellations, increased the number to 120,234, or by 10,852,700 acres. In Manitoba the net increase of the two and one-half years was 2,300 acres, in Saskatchewan 41,423, and in Alberta 22,020, but these figures do not take account of farm lands purchased from railway companies and other corporations in the same period.

The drought of summer and autumn was less severe last year than in 1907, but it had the effect of again reducing the number of farm animals in the older provinces. In the whole of Canada horses exceeded the number of last year by 34,224, while mules and cows are less by 68,440, other horned cattle by 245,067, sheep by 128,014, and swine by 427,540. In Prince Edward Island, Nova Scotia and New Brunswick horses are less by 1,021, mules cows by 3,277, other horned cattle by 20,113, sheep by 21,125, and swine by 9,316.

A guileless and unsophisticated young man from rural Nova Scotia innocently called out a large section of the city fire brigade today. He was directed to post a letter in a box on the corner and mistaking the fire alarm box for a letter box, he sent in a fire alarm. When the firemen from four different stations arrived, the Nova Scotian was duly enlightened.

INTERESTING SERVICE IN CARLETON CHURCH
The festival of St. John the Baptist was celebrated by divine service in Carleton Presbyterian Church last night for the Worshipful Master Wardens and brethren of the Carleton Union Lodge of Free Masons, No. 9, P. and A. M.—N. B. A very fine and spiritual sermon was delivered by Brother, the Rev. Hibbert R. Bond. He was assisted at the service by Past Masters, Revs. G. Fred Scoville and M. E. Fletcher. There was a special programme of hymns and the service was in all both brilliant and edifying.

After the service the members of the various lodges marched to the ferry and disembarked. The Carleton Cornet Band was in attendance.

WHERE WASHINGTON RESTED.
A small feather pillow which nestled in a glass case in the historical museum created especial interest among the visitors.

"I don't see anything unusual about that pillow," remarked a girl, turning to the guide. "That is Washington's original headquarters."—Ladies' Home Journal.

A SIGN.
Whenever you hear people referring to any one as "an original genius" you may be sure that they are prepared to make excuses for him.—Chicago Record-Herald.

GOVERNMENT BY MEN IS NOT DEMOCRACY

Women's Congress Declare Women Must Help to Govern

Eloquent Opening Address by Countess Grey—Housewife Not Adequately Compensated, Declares Speaker.

TORONTO, June 24.—That Canada has arrived at a point when the foundation for her future national life will be laid and the part to be played by women in the building up of that structure were eloquently emphasized by Countess Grey in her address at Convocation Hall this morning in opening the International Congress of Women. The Congress, which opened the expansion of the International Council of Women as being held under the auspices of the National Council of Women of Canada and the gathering this morning retained all the cosmopolitan features of the meetings which preceded it. The chair was occupied by Lady Edgar, president of the Canadian Council, and she was supported by the Canadian women, president of the International Council, Mrs. J. M. Gibson, Lady Byrd and various officers of the international organization.

Lady Edgar in welcoming Lady Grey as the delegates said programmes of various sections, nine in all, into which the congress would divide were so full of interest that it was hard to choose between them. The questions dealt with were of vital interest to the world at large. There were depths to be visited and heights to be climbed. Countess Grey, in declaring the congress open, said that as hon. president of the National Council of Women of Canada, she was proud to welcome to this country the delegates from all over the world, and especially to Lady Aberdeen, the invaluable president of the International Council. Their visit to Canada was paid at an opportune time because they came at a period when the greatness of Canada's destiny was being realized by the world.

Lady Aberdeen, in her address, said that the congress was a most timely one, and that it was a privilege to be associated with Lady Edgar in offering cordial welcome to the delegates from all over the world, and especially to Lady Aberdeen, the invaluable president of the International Council. Their visit to Canada was paid at an opportune time because they came at a period when the greatness of Canada's destiny was being realized by the world.

PSYCHINE

THE GREATNESS OF THOUGHT FOR HEALTH AND HAPPINESS

LEAVES THE BENCH TO SPANK URGINGS

Niagara Falls Police Judge Gives Parents a Practical Example of How to Train Boys

NIAGARA FALLS, N. Y., June 24.—Police Judge Benck in the dual role of judge and executioner, reverted to the methods of our fathers and administered a sound spanking to two seven-year-old culprits whom he had just declared guilty of tampering with a fire alarm box.

The judge is a firm believer in the Biblical injunction against sparing the rod and spolling the child, and he made a crowd of court room.

HOARDED GOLD IN CELLAR OF HOUSE

San Francisco Man Tells of Burying Nearly \$50,000

Was Afraid of the Banks—After the Fire Henry Kisanne and His Brother dug Up the Gold for Investment.

SAN FRANCISCO, Cal., June 24.—A remarkable story of the burial under a house at Sixth and Polson streets of gold coins to the amount of about fifty thousand dollars was told in Judge Graham's court by Henry Kisanne, a brother of the late Reuben H. Lloyd, a well known lawyer, who died last month. Kisanne told of digging up the money, \$10,000 at a time, and giving it to his brother to invest for him.

Kisanne, against the estate of Charles W. Slack and Dr. John Galloway—made no defence to the suit, stating that they were convinced the money belonged to Kisanne. The beneficiaries under Lloyd's will also requested that any doubt be resolved in the plaintiff's favor.

Kisanne is seventy-nine years old. For many years he conducted a learning business. "I moved everything from a house to a ship," he explained, while he was hoarding the gold under his house he told nobody about it.

"If you have a secret keep it, or else it's none," he said to the judge. "I told no one about the money. I would not tell you now if I were not obliged to."

Kisanne stated that he started hiding money under the house because he feared the banks. He put it in chests in a cellar. After the fire, he explained, the cellar was flooded with water, and he decided to take the money out. Continuing his story, Kisanne testified:

"I told Reuben, I have got some money, and I wanted him to do something with it. Says I, 'What shall I do with it?' Well, how much money have you got there?" says Reuben. "I have got \$45,000, or nearly \$50,000," says I, "all in gold. Can you do anything with it for me?" Yes, says he. He came and took it—dug it up. We took out sometimes \$5,000 or \$10,000. I handed it to him and he took it away."

"You told me you gave your brother \$31,000 or \$32,000," reminded Judge Slack, who was questioning Kisanne. "Well, that is as near as I can tell. I gave him as much as he wanted. I had no place to keep it," Kisanne added, that some years before he had \$10,000 in the Pacific bank and was nearly "caught."

"Did you acquire all this money in your trucking business?" asked the judge.

"Yes, sir."

"When did you take it out of the bank?"

"I never had it in the bank, except the \$10,000 which I checked out of the Pacific bank."

"Did your brother pay you the interest or income from the money?"

"Yes, here is some money he gave me," answered Kisanne, handing to the judge a roll of fifty dollar bills totalling \$500.

Mr. Slack, as one of the executors of the estate, and Walter Linforth, as attorney for Dr. Galloway, the other executor, both stated to the court that there was no doubt the money and bonds saved for belonged to Kisanne. Slack said that in the safe deposit of Lloyd they found an envelope containing twenty-seven bonds of the Los Angeles & Pacific Railroad Company, the bonds in the handwriting of Lloyd.

"Property of Henry Kisanne, R. H. I.," they also found a bank book in the name of Kisanne, showing a deposit of \$12,300.

Mrs. Kisanne and Mrs. Anna West, the child beneficiaries under the will, were both anxious and willing that "Uncle Henry," as they called him, should have all he asked for.

Kisanne before he left the witness stand said there might be a little of the gold in the cellar yet.

"Don't be out that secret; some one might go and dig it up," advised the judge.

"Well, let them," returned Kisanne. "They are welcome to all they can find there."

Kisanne is now residing with his sister, Mrs. Mary Headley, at the Lloyd residence, Hyde and Sacramento streets. He stated that he was living in a shack until Dr. Rupert Blue, of the federal hospital service, tore it down.

HE SOLD BEER AFTER HOURS
In the police court yesterday afternoon the case of John McDricoll, junk dealer, 218 Prince William, for buying from minors was postponed until Saturday morning by Magistrate Ritchie, after taking the evidence of Mr. McDricoll.

In his evidence Mr. McDricoll swore that Acting Detective Luas visited his place of business on an average of five times a day and used rather abusive language while on his premises. When asked by the magistrate if he wanted Officer Lucas present, Mr. McDricoll and his counsel, Daniel Mullin, asked for time to consider the matter.

The case of Timothy Driscoll, charged with selling beer in his store on Mill street after hours on Saturday, 19th inst., was next brought up.

Inspector John E. Jones laid the information.

There was some misunderstanding over a previous case in which Miles Carroll and Mr. Driscoll were reported for selling beer after hours on Saturday, May 8th. The court understood that as Carroll's was a test case, Mr. Driscoll was to abide by the decision, which resulted in a conviction.

After due consideration of all evidence presented Magistrate Ritchie fined the defendant \$20 or twenty days on the first offence and \$30 or thirty days on the second.

SHOCKING ACCIDENT IN A CHIPMAN MILL
A shocking accident occurred in Sayre and Holly's mill at Chipman yesterday afternoon, by which George Crossman, aged 21, unmarried, lost his left arm and the knee.

He was working at the pull bog of the mill carriage and had passed a piece of lumber to William Morrison, a fellow-workman engaged in moving the stuff from the rotary. Before Crossman got hold of the lever again which controls the bog, he was turned round by the motion of the carriage and his leg came in contact with the rotary saw and was cut almost in two just above the knee.

Crossman got hold of the lever again which controls the bog, he was turned round by the motion of the carriage and his leg came in contact with the rotary saw and was cut almost in two just above the knee.
