

THE WEATHER.

Maritime—A few scattered showers, but generally fair.

Toronto, May 2.—Pressure is still high from the lower lakes region to Florida, while several depressions exist on the continent, the most pronounced covering the southwestern states. The unusually warm weather continues over the greater portion of Ontario and in western Quebec. Elsewhere much cooler conditions prevail.

AROUND THE CITY

Had No License.

Sergeant Kilpatrick, of the North End, yesterday reported forty-five for license employed on Douglas Avenue for working in the city without a license on May 1st.

St. John Student Lad Class.

The results of the recent A. Class examinations at the Provincial Normal School, have been announced as follows: 1st, Fred Manning, of St. John; 2nd, Miss Belle McAuley, of Forest Glen, Westmorland County; Miss Jean McBeath, of Buctouche, Kent County; 3rd, J. Whitford.

Retail Meat Market.

The following are today's retail quotations for meat at the country market: Beef (roast), 12 to 22 cents; steak, 11 to 24 cents; corn beef, 10 and 12 cents; veal, 10 to 16 cents; lamb (yearling), 12 to 20 cents; Spring lamb, \$1 to \$2 a quarter; pork, 16 to 20 cents. Beef is fairly scarce today. There is a good supply of veal but lamb is scarce. Vegetables are the scarce. Rhubarb is in and is selling at from 8 to 12 cents a pound.

Stole an Automobile.

Shortly after last midnight two men stole an automobile owned by A. C. Smalley from Wellington Row. They were seen by the police going out the Marsh Road with the car and were seen about three o'clock this morning returning to the city. They abandoned the car on City Road, where the owner recovered it. The police are working on the case and it is probable that they will find the persons who stole the car.

MONCTON FACING A
GARBAGE PROBLEM

Introduction of Natural Gas Fuel Makes it Necessary to Consider Installation of Public Incinerator.

Moncton, N. B., May 2.—The introduction of natural gas as a fuel in this city has made it necessary for the authorities to devise some plan for the disposal of the city's garbage, since this can no longer be burned at home as with coal fuel. With this object in view a meeting of a joint committee composed of members of the city council and the Board of Health was held this evening in the Supreme Court Chambers, City Hall.

The special committee of the council was composed of Ald. Allen, chairman, Fryers and Boudreau. On motion it was decided to instruct the city clerk to secure from the various incinerator manufacturers quotations on cost of the plant, and to recommend to the city council that a by-law be passed requiring all householders to furnish suitable cans with covers for the storing of garbage.

PERSONAL.

George B. Jones, M. L. A., was in the city yesterday and registered at the Victoria.

A. B. Lambie, of the Department of Inland Revenue, Ottawa, was in the city yesterday at the Royal. Mr. Lambie is on a routine inspection trip.

James Robertson, of Miramichi and a prominent lumberman, was in the city yesterday at the Royal.

TABLOID MUSICAL COMEDY.

The Kalkreuth Tabloid Musical Comedy Company opens its engagement at the Opera House on Tuesday afternoon in the musical comedy "The Princess of India." There are eleven members in the company including several soloists, comedians and dancers. Afternoon, 10c, 15c, evenings, 10c, 50c, 25c.

MONDAY'S BIG EVENT.

The sale of seats opened at the Opera House yesterday for the Artillery Band concert to be held on Monday night, and a large number of tickets were purchased. Miss Blenda Thompson will be the vocal soloist and a ladies' quartet will also give a feature of the entertainment. The band has mastered a selected and difficult programme and instrumental solos will be rendered by Bandman Harold Williams on the baritone saxophone, and Bandman Louis Nye on the piccolo. The seat sale will be on at the Opera House all day today and on Monday, and there are still some choice seats to be obtained.

MUCH LOCAL INTEREST IN
CASE OF RICHARD D. ISAACS

Understood Now that Alberta Government is Interested in Prosecution of St. John Man Arrested in New York—"Uttering Forged Documents" Official Charge Against Him—His Interesting Career.

It is understood that Detective Killen is to leave for New York, with the necessary extradition papers to bring back Richard (Dickie) Isaacs for trial on the charges of uttering forged documents on title deeds, knowing them to be so, for property in the province of Alberta.

Andrew Myles, of this city, by whom the warrant for Isaacs was sworn out, and to whom the false deeds were supposedly issued, is understood to be undertaking the prosecution in the interests of the Alberta Government, as well as in his own.

When interviewed by The Standard and last evening, Mr. Myles admitted that he had caused the warrant to be issued, but beyond that refused to give out a definite statement. He, however, intimated that the case would be pressed.

The interest which the Alberta government is taking in the arrest and prosecution of Isaacs and the energy with which the case up to the present is being carried out appears to give color to the rumor that large sums were involved in the alleged deal. The exact manner in which the deal was put through is not known. That large sums and many acres are involved in the alleged swindle is the general belief and the citizens are looking forward with much interest to the trial.

The life of Richard Isaacs reads like a novel. Of poor parents and of Irish-Jewish extraction his early days were spent in this city. With but an ordinary education, and little knowledge of business affairs, Isaacs was, for some time, employed by the St. John Street Railway in their electric lighting plant. He was also a stoker on the steamer Prince Rupert.

Isaacs, it is said, had experience in the prize ring about the Maritime Provinces, and at one time fought with Eddie Connelly at Amherst. A citizen speaking of that encounter said: "Poor Dickie, he went over to Amherst to beat Eddie Connelly and got an awful licking."

Isaacs next got into the limelight as an agent for western real estate. From that he drifted to other occupations and was latterly connected with the affairs of the Disraeli Asbestos Company.

It is understood that he will have to face the charge of carrying concealed weapons in New York City, and it will probably be a few weeks before he is brought here. In the meantime the case is being followed with much interest.

A tragedy which bears every appearance of suicide transpired in the tailoring establishment of W. G. Salmon yesterday morning about 10 o'clock, when Charles Jackson fell from the chair on which he was sitting to the floor, dying almost immediately. In the room through which he had passed to enter the tailor shop was found an empty carbolic acid bottle, and Mr. Jackson is known to have purchased a similar bottle of the poison from M. V. Paddock a short time before. His health has been poor of late and for the last few days he has not been attending to his duties as bookkeeper for A. L. Goodwin. He still retained his position, however.

Mr. Jackson is survived by a wife and two children, a five-year-old boy and a baby five days old. George Jackson, Robert and C. H. Jackson, his uncles, he has been employed with the Goodwin Fruit Co. for fifteen years in the capacity of bookkeeper and was a faithful and valued employee. A wide circle of friends heard the sad news with sincere sorrow.

Dr. Case was called in shortly after the attack, but found life extinct. Coroner Berryman viewed the remains and gave permission for their removal to his former residence. The Coroner has not yet decided whether an inquest will be held.

Dr. Case on examination found evidences that the deceased had taken carbolic acid.

SAILORS AND SCHOONERS ARE BOTH RATHER SCARCE

Very few schooners have come to St. John so far this spring to load lumber for American ports. Many of the schooners which during the winter have been employed in the southern trade are going to the North Shore and Nova Scotia ports to load lumber; but it is expected that in the course of a few weeks there will be more schooners coming here. The big lumber dealers, who can afford to wait, are not anxious to ship lumber to the United States at the present time, as in case of the Wilson tariff bill passing Congress they have some hope of getting better prices.

While there are only a few schooners in port, there are also few sailors. It has been quite a number of years since sailors were so scarce as they are today. The new construction work has given employment to many men who ordinarily were looking for a chance to go to sea at this time of the year. Quite a number of sailors are employed on the C. P. R. elevator and the sugar refinery, where their peculiar ability can be utilized to considerable advantage.

THE LATE J. HOWE ALLEN.

The death of John H. Allen occurred April 20th at the home of his daughter, Mrs. Knox, 151 Wentworth street, the 87th year of his age. The late Mr. Allen by his kindly manner and upright character, during a long life, won a host of friends who sincerely mourn his death and extend their sympathy to his bereaved family.

The deceased is survived by two daughters, Miss Ellen and Mrs. Knox, of 151 Wentworth street, with whom he lived, and one son in New York.

The funeral was held from his late residence yesterday afternoon at half past two. Rev. Wellington Camp conducted the burial service and interment was in Fernhill Cemetery. The high esteem and respect in which the deceased was held was attested to by the long cortege of mourners who followed the body to its last resting place.

A Good Suggestion.

While housecleaning have your pictures framed at Hoyt Bros., 106 King street.

NEW BRUNSWICK WILL
BE WELL ADVERTIZED

Province will have Lecturers in Great Britain—Will Carry Campaign into New England States.

"As a result of the conference this week with Dr. Landry, the minister of agriculture, the programme of the immigration department this year will be of a more extensive character than ever before," said James Gilchrist, the superintendent of immigration yesterday.

It is the intention of the department to do a great deal more advertising in Great Britain this year than we have ever done, and we expect to send out three or four lecturers through the rural districts of the Old Country. We will have a large number of photos of typical scenes in the province taken this summer when the country is looking its best, and the lecturers will be supplied with slides to illustrate their talks on the opportunities and resources of the province.

"Owing to the difficulty in the past of placing new settlers the department has not felt warranted in embarking upon a big advertising campaign in the Old Country, and trying to induce more people to come out than we could assimilate. But with the Farm Settlement Board at work and the new spirit among the native farmers, it is felt that the time is ripe for a vigorous campaign of publicity on behalf of the province. The farmers are waking up, beginning to carry on operations on a more extensive scale, and are willing to employ men the year round—something they were not inclined to do a year or so ago."

"Another thing we intend to do," added Mr. Gilchrist, "is to conduct an advertising campaign in the States, particularly in New England. We will also do some advertising in the Canadian West. There are thousands of people from New Brunswick now living in New England and the Canadian West who are in any way of making their fortunes. If we can get in touch with them and get them interested in the opportunities which the development of the province agriculturally and industrially is creating, we should be able to induce them to come back home and take their part in the general progress of the province."

TOOK CARBOLIC ACID;
DIED IMMEDIATELY

Charles Jackson Drank Fatal Dose Yesterday Morning—Friends Cannot Find Motive for the Act.

A tragedy which bears every appearance of suicide transpired in the tailoring establishment of W. G. Salmon yesterday morning about 10 o'clock, when Charles Jackson fell from the chair on which he was sitting to the floor, dying almost immediately. In the room through which he had passed to enter the tailor shop was found an empty carbolic acid bottle, and Mr. Jackson is known to have purchased a similar bottle of the poison from M. V.
