A BACHELOR'S CONSOLATION. A Romance of the Needle. BY ROCKAFELLOW. In a snug little cot, not a thousand miles off,
Lived a lonely, contented old "bach,"
Who cooked his own grub and dined by himsel
And had no one to sew on a patch.

With his cat, and his dog, and his little per stick, So he oft went with holes in his clothing. There no doubt were misses and maids quite

Now, this lucky old bachelor heard by a friend, Or read in his morning journal. If the wonderful stitching of sewing machines, And considered the matter nocturnal.

For some thought the "Wheeler & Wilson" the best.

And others the "Wilcox & Gibbs."

While others affirmed that the agents of both Were too much inclined to tell fibs. and a few for the "Florence" were ready to fight While most liked the "New Family Singer;" nother one swore the "Osborne" was best, The last one, I think, was a shaker.

By the feed that could make it sew back.

But our Bachelor friend was dissatisfied still, For the "Florence" so complicate seemed, He feared the minutise might "get out of fix," And could never be wholly redeemed.; Then they told him another advantage they had Over other machines in the West, That four different stitches with it they could And from four he might sure get the best.

Our hero replied, "What's the use of the our!

If one of the stitches is boot,
Why that is the right one to use all the time,
And what will you do with the rest?" The "Howe" and the "Wilson" both vainly he The "Domestic" and "Osborne" as well. But the "Howe" was too heavy, the "Wilson too light. And the "Osborne" broke down on a fell.

The "Finkle & Lyon" or "Victor" he tried, The "Ætna," "Blees," "Leavitt" and "Weed, Till worried and vexed with his fruitless research, He scarce hoped in the end to succeed. After trying in vain many other Machines, Without any hope of success, He called where the "Singer New Family" wa

And they quickly relieved his distress. zvi For here half a dozen machines were engaged In stitching of different sorts, Which they did so complete, and with so little noise He acknowledged the truth of reports.

In lightness of running, in stillness and speed,
In construction so simple, yet strong.
Sure none but the "New Family Singer" would vie, Though he'd searched through the infinite Then the stitch was so neat, so elastic, so strong That he vainly endeavored to break it, And so many advantages in it combined That he quickly decided to take it.

And a general assortment of

througnout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy, it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.
