LONDON, Nov. 27, p. m.
Yesterday a deputation reprerenting fifty-two Chambers of Commerce waited on Lords Derby and Carnarvon to present objections to the proposed Canadian Reciprocity Treaty with the United States.

A report will be made that no evidence of corrupt practices was given.

The Writ for an election in Colenster, Nomination is fixed for 10th of December.

States.

Sampson Lloyd said that under the proposed Treaty the manufacturers of England were placed at a great disadvantage compared with those of the United States. The Treaty is unfair in principle, and exceedingly injurious in its practical effects. He wished to submit a general principle that in any case where a British colony independently negotiated a treaty with a foreign country, England should not be placed in a worse position than such a foreign country.

Derty replied that the Government had agreed to this principle.

Mr. Baron, representing Leeds, said he did not desire to have a protective clause. He only wished Canada not to grant the United States anything more than England.

Mr. Behrens, representing Bradford, stated that there was a party in Canada so powerful that it might take action prejudicial to England if the Treaty was not clearly worded to prevent it. He asked for the insertion of a clause providing that the United States shall never have the right to claim any remission of duties not accorded to British America.

Derby then replied at length. He sail:

If for any supposed interest of our own, we objected to the Treaty establishing such freedom, it is perfectly clear that discontent among loyal Canadians would result. Those attached to the Imperial Government who, I believe, universally preponderate would lend strength to the party which look forward to annexation to the United States. You say there is no grant and the commercial relations of England and Canada cannot be dealt with an a Treaty with a foreign power. They are relations of a purely domestic character. If any Canadian Parliament were hereafter to seek to impose differential duties, the Governor General would be competent to reserve such an act to the consideration of the Home Government. I make the statement clearly and distinctly that there is nothing in this Treaty which, considering the relations of the Mother Country with the Colonies, would make it possible for Canada to impose differential duties on England in favor of the United States."

Edited by

DR. J. G. (HOLLAND,
Author of "Kathrina," 'Bitter Sweet," etc.

PAVORITE SONG is a royal octave in the best style of the art, on the finest tinted paper, and illustrated with 125 thoroughly dainty and delicate engravings, FROM ORIGINAL DISSIGNS, by the similes of the original autograph copies of (20) famous poems.

The illustrations are numerous and exquisitely wrought. What can be more beautiful than the one which reflects the enchanting spot where—

"Maud Muller, on a summer's day."
One of those lovely New England land-scapes, which the engraver has represented in outlines as beautiful and artistic as the song it adorns.

Conspicuous, also, for its rare beauty, is the illustration accompanying the "Song of the Brook," where the streamlet, dashing beneath the rustic bridge, goes chattering goes chattering goes chattering goes chattering for the prima ng river."

Altogether, this is one of the most charming and elegant books ever issued by the American press—a fitting gift for lover or friend; an attractive ornament for the parlor table; a valuable addition to any family library.
