Mayor Little's View.

Mayor Little left the chair to speak
to the question. He said the situation
was so serious that it was worth a great deal of money to show the people what expenditures were being made by the board of education and by the council. To do this would involve a large expenditure, and it should not be carried out until seriously considered. About 75 per cent of the taxes usually are paid

in the first instalment. If board of education taxes were left until the third instalment only about 66 2-3 per cent of the total could be collected June 1. Money would have to be borrowed to run the city till the third instalment was collected. While the board would have to pay the interest on this, eventually it would come out of the taxpayers' pockets. The citizens would be penalized by losing the dis-count allowed when all taxes are paid

SPRING DEBILITY

Loss of Appetite, That Tired Feeling and Sometimes Eruptions. Thousands take Hood's Sarsapa-illa as a spring medicine for that rilla as a spring medicine for that tired feeling, nervous weakness, impure blood and say it makes them feel better, eat and sleep better, and "makes food taste good." Spring debility is a condition in which it is especially hard to combat disease germs, which invade the system here, there and everywhere. The white blood corpuscles, sometimes called "the little soldiers in the blood," because it is their duty to fight disease germs, are too in the blood," because it is their duty to fight disease germs, are too weak to do good service.
