

Parent's System of Salvage,

COMBINING LIGHTNESS WITH STRENGTH.

Saving the lives of two or more persons in a few seconds.

Patented in Canada, 10th October, 1873. In the United States, 6th January and 17th March, 1874.

The simplest thing is always the best.

The truth of the above well-acknowledged saying has been proved in the several trials which have been made with my Apparatuses, consisting of HARNESSES, PORTABLE HOOKING LADDERS and a PULLEY. PARENT'S SYSTEM OF SALVAGE, combining strength with lightness, offers the greatest advantages, on account of the great safety and promptness it affords in the work of salvage, and it defies any comparison with all that has heretofore been invented.

Terms: cash.

PRICES OF APPARATUSES:

Six Ladders (weighing 225 lbs.).....	\$150.00
Harness, (single and double,) from.....	\$10 to \$20.00
Pulley and Rope.....	\$10.00
